Alien Wisdom Arnaldo Momigliano,1978 Alien Wisdom Arnaldo Momigliano,1991 Memory in Jewish, Pagan and Christian Societies of the Graeco-Roman World Doron Mendels,2004-07-29 The ten studies in this book explore the phenomenon of public memory in societies of the Graeco Roman period Mendels begins with a concise discussion of the historical canon that emerged in Late Antiquity and brought with it the distorted memory of ancient history in Western culture The following nine chapters each focus on a different source of collective memory in order to demonstrate the patchy and incomplete associations ancient societies had with their past including discussions of Plato s Politeia a site of memory of the early church and the dichotomy existing between the reality of the land of Israel in the Second Temple period and memories of it Throughout the book Mendels shows that since the societies of Antiquity had associations with only bits and pieces of their past these associations could be slippery and problematic constantly changing multiplying and submerging Memories true and false oral and inscribed provide good evidence for this fluidity

The Far Edges of the Known World Owen Rees, 2025-09-30 A revisionist history of the ancient world that shifts our focus from Athens and Rome to the long ignored societies on the borders When Ovid was exiled from Rome to a border town on the Black Sea he despaired at his bleak and barbarous new surroundings Like many Greeks and Romans Ovid thought the outer reaches of his world was where civilization ceased to exist Our own fascination with the Greek and Roman world has for centuries followed this perspective shrouding cultures at the far reaches of their influence in myth But what was it like to live on the edges of these empires on the boundaries of the known world In *The Far Edges of the Known World* ancient historian Owen Rees draws on archaeological excavations to reveal these so called borders as thriving multicultural spaces This is where the boundaries of civilized and barbarian began to dissipate where traditional rules didn't always apply where different cultures intermarried and where nomadic tribes built their own cities Transporting readers through historical spheres of influence Rees journeys from the sandy caravan routes of Morocco to the freezing winters of the northern Black Sea from the Red River valley of Vietnam to the rain lashed forts south of Hadrian's Wall Beyond well remembered figures like Cleopatra and Caesar Rees introduces us to the everyday people who called the borderlands home We meet an enterprising sex worker in Egypt's Naucratis gambling soldiers at Hadrian's Wall in England a Greco Buddhist monk hailing from the Ganges and more As Rees shows exchanges of trends ideas even religious practices were happening all over the world *The Far Edges of the Known World* offers us a vibrant new lens to see and understand the ancient world

Origin and Transformation of the Ancient Israelite Festival Calendar Jan A. Wagenaar, 2005 The book focusses on the origin and transformation of the priestly festival calendar Since the epoch making work of Julius Wellhausen at the end of the 19th century the differences between the various ancient Israelite festival calendars have often been explained in terms of a gradual evolution which shows an increasing historicisation denaturalisation and ritualisation The festivals were in Wellhausen's view gradually detached from agricultural conditions and celebrated more and more at fixed points in the year This study tries to show that the changes in the priestly festival calendar reflect a conscious effort to adapt the ancient Israelite festival calendar to the semi annual layout of the Babylonian festival year The ramifications of the change only come to the fore after a careful study of the agricultural conditions of ancient Israel and Mesopotamia makes clear that passover and the festival of unleavened bread were originally celebrated in the second month of the year The first month of the year envisaged by the priestly festival calendar for the celebration of passover and the festival of unleavened bread in turn mirrors the date of one of the two semi annual Babylonian New Year festivals The two Babylonian New Year festivals were celebrated exactly six months apart at the vernal and autumnal equinoxes In order to adapt the ancient Israelite festival calendar to the Babylonian scheme with two New Year festivals a year the date of passover and the festival of unleavened bread had to be moved up by one month The consequences for the origin of passover the festival of unleavened bread the festival of weeks and the festival of huts are

Free, 1995 *Egypt and the Limits of Hellenism* Ian S. Moyer, 2011-07-07 In a series of studies Ian Moyer explores the ancient history and modern historiography of relations between Egypt and Greece from the fifth century BCE to the early Roman empire Beginning with Herodotus he analyzes key encounters between Greeks and Egyptian priests the bearers of Egypt's ancient traditions Four moments unfold as rich micro histories of cross cultural interaction Herodotus interviews with priests at Thebes Manetho's composition of an Egyptian history in Greek the struggles of Egyptian priests on Delos and a Greek physician's quest for magic in Egypt In writing these histories the author moves beyond Orientalizing representations of the Other and colonial metanarratives of the civilizing process to reveal interactions between Greeks and Egyptians as transactional processes in which the traditions discourses and pragmatic interests of both sides shaped the outcome The result is a dialogical history of cultural and intellectual exchanges between the great civilizations of Greece and Egypt
