Introduction to Intravenous Therapy for Health Professionals - Text and E-Book Package Eugenia M. Fulcher, Margaret Schell Frazier, 2007-01 Designed for existing courses within the MA curricula this text provides initial preparation for the principles and techniques of intravenous therapy Students will learn the basic knowledge necessary to safely and precisely administer basic IV fluids and medications within the scope of practice for their particular health care profession **Intravenous Therapy** Intravenous Nurses Society, 1995 This text addresses special areas of IV therapy including oncology and pain management blood and blood components and parenteral nutrition The book also offers calculations required for parenteral therapies and applies IV therapy to a variety of settings including home health care and long term care in addition it provides therapy principles for care of paediatric and geriatric patients **Intravenous Infusion Therapy for Medical Assistants** Dianne L. Josephson, Nina Beaman, 2006 This essential publication focuses on what the CMA needs to know about intravenous infusion therapy Infusion or IV therapy has long been part of the acute care of patients However more patients are receiving IV therapy at home in emergency centers at infusion centers and in dialysis clinics Thus CMAs often need to understand IV therapy to lay out the equipment to monitor the patient to assess the infusion site to discontinue the infusion and perhaps even to insert the IV The purpose of this book is to help you understand the theory of IV therapy With patient safety in mind risks complications and adverse reactions are discussed in Intravenous Infusion Therapy for Medical Assistants Giving the correct medication is crucial to the CMA so intravenous infusion preparations are compared and contrasted Sidebars of Medical Assisting Alerts and Tips are distributed throughout the text to highlight key safety concerns and professional issues Each chapter concludes with Review Questions and Activities to ensure that learning objectives have been met *Phillips' Man of I.V. Therapeutics* Lisa Gorski, 2022-10-28 The manual of

choice perfect for class clinical and practice The perfect resource for any setting where infusion therapy skills are required Its popular self paced approach makes it ideal for classroom and clinical settings as it progresses from the basics to advanced techniques while incorporating theory into clinical application A focus on evidence based practice in a streamlined format continues to make this the manual of choice in a rapidly advancing field Thorough comprehensive manual on IV therapeutics Gorski the author is considered the final word in all matters of IV therapeutics A great go to guide for any nurse involved with infusions Andrea Online Reviewer New Updated Incorporates the 2021 Infusion Therapy Standards of Practice published by the Infusion Nurses Society INS new and revised guidelines from the Centers for Disease Control CDC and World Health Organization WHO as well as the latest guidelines from the Association for the Advancement of Blood Biotherapies AABB and the American Society of Parenteral and Enteral Nutrition ASPEN New Chapter An Introduction to Biologic Infusion Therapies Updated Follows the INS Core Curriculum for certification Updated Uses current literature to support evidence based practice Updated Presents procedures and rationales as well as technology that reflect practice today Presents Thinking Critically boxes a case study feature Integrates pediatric and geriatric content throughout Offers a wealth of additional resources for students online at FADavis.com Features well organized pedagogical tools including Learning Objectives Nursing Fast Facts Age related and Cultural Considerations Nursing Plans of Care Home Care Issues Patient Education Key Points and Review Questions Makes must know information easy to find with icons for key points of theory nursing fast facts INS standards of practice relevant studies in evidence based practice nursing points of care home care issues patient education and a media link to the online tools and resources Presents detailed step by step procedures for subcutaneous infusion of pain medication peripherally inserted catheters PICCs epidural pain medication administration and patient controlled analgesic therapy Includes competency skill checklists for evaluating procedures Examines delivery of IV therapy in the home setting Highlights critical content in Nursing Fast Fact boxes Spotlights assessment and intervention guidelines in Nursing Points of Care boxes Provides competency criteria for hospital policy and procedure development required by The Joint Commission
