John Carpenter Michelle Le Blanc, Colin Odell, 2001. Pocket Essentials is a dynamic series of books that are concise, lively and easy to read. Packed with facts as well as expert opinions, each book has all the key information you need to know about such popular topics as film, television, cult fiction, history and more. John Carpenter has been setting trends and exciting audiences for a quarter of a century. His first two features were a double whammy, virtually unparalleled in modern cinema: the urban reworking of *Rio Bravo*, *Assault on Precinct 13*, followed by the first and defining slasher movie, *Halloween*. Since then, Carpenter has worked with low and big budgets, directed stars and unknowns and enjoyed commercial success and suffered critical failure. But he has consistently produced a stream of entertaining, unpretentious movies, some of which, particularly *Escape from New York* and *The Thing*, are now regarded as modern classics. In their *Pocket Essential to John Carpenter*, Michelle Le Blanc and Colin Odell examine and analyze every film by this prolific director.

Slow Productivity Cal Newport, 2024-03-05. A New York Times, Washington Post, USA Today and IndieBound bestseller. Brilliant and timely. Oliver Burkeman: *Do Fewer Things Work at a Natural Pace: Obsess over Quality*. From the New York Times bestselling author of *Digital Minimalism* and *Deep Work*, a groundbreaking philosophy for pursuing meaningful accomplishment while avoiding overload. Our current definition of productivity is broken. It pushes us to treat busyness as a proxy for useful effort, leading to impossibly lengthy task lists and ceaseless meetings. We're overwhelmed by all we have to do and on the edge of burnout, left to decide between giving into soul-sapping hustle culture or rejecting ambition altogether. But are these really our only choices? Long before the arrival of pinging inboxes and clogged schedules, history's most creative and impactful philosophers, scientists, artists and writers mastered the art of producing valuable work with staying power. In this timely and provocative book, Cal Newport harnesses the wisdom of these traditional knowledge workers to radically transform our modern jobs. Drawing from deep research on the habits and mindsets of a varied cast of storied thinkers from Galileo and Isaac Newton to Jane Austen and Georgia O'Keefe, Newport lays out the key principles of slow productivity, a more sustainable alternative to the aimless overwhelm that defines our current moment. Combining

cultural criticism with systematic pragmatism Newport deconstructs the absurdities inherent in standard notions of productivity and then provides step by step advice for cultivating a slower more humane alternative From the aggressive rethinking of workload management to introducing seasonal variation to shifting your performance toward long term quality Slow Productivity provides a roadmap for escaping overload and arriving instead at a more timeless approach to pursuing meaningful accomplishment The world of work is due for a new revolution Slow productivity is exactly what we need *The Big Issue, Cape Town*, 2005 *The Film Encyclopedia 7th Edition* Ephraim Katz, Ronald Dean Nolen, 2012-05 Ephraim Katz's The Film Encyclopedia is the most comprehensive single volume encyclopedia on film and is considered the undisputed bible of the film industry Completely revised and updated this seventh edition features more than 7 500 A Z entries on the artistic technical and commercial aspects of moviemaking including Directors producers actors screenwriters and cinematographers Styles genres and schools of filmmaking Motion picture studios and film centers Film related organizations and events Industry jargon and technical terms Inventions inventors and equipment Plus comprehensive listings of academy award winning films And artists top grossing films and much more **International Index to Film Periodicals**, 2007
