## **Assembly Places And Practices In Medieval Europe:**

*Assembly Places and Practices in Medieval Europe* Alike Pantos, Sarah Semple, 2004 In medieval England and elsewhere in northwestern Europe the moot or assembly represented the first resort to law and government An institution through which a free man could obtain judgment and recompense defend himself or seek to change the law it encapsulated many of the features that today distinguish judicial and political process in north western Europe A collection of ten papers by a number of academic specialists this volume presents a European perspective on the origin and evolution of medieval royal judicial and popular assemblies It is the first study in over a century to focus on this remarkable aspect of the early political process

*Power and Place in Europe in the Early Middle Ages* Jayne Carroll, Andrew Reynolds, Barbara Yorke, 2019-12-17 This book reveals a high degree of organisational capacity in early medieval societies It outlines a new agenda for assessing and interpreting early medieval power how it was formed how it functioned and how it developed across time providing the basis for the kingdoms of the European Middle Ages

**Perceptions of the Prehistoric in Anglo-Saxon England** Sarah Semple, 2013-10 Represents an unparalleled exploration of the place of prehistoric monuments in the Anglo Saxon psyche and examines how Anglo Saxon communities perceived and used these monuments during the period AD 400 1100 [The Role of Anglo-Saxon Great Hall Complexes in Kingdom Formation, in Comparison and in Context AD 500-750](#) Adam

McBride, 2020-01-31 This book explores the role of great hall complexes in kingdom formation through an expansive and ambitious study incorporating new fieldwork new quantitative methodologies and new theoretical models for the emergence of high status settlements and the formation and consolidation of supra regional socio political units *Beyond the Burghal Hidage* John Baker, Stuart Brookes, 2013-03-27 As the title suggests *Beyond the Burghal Hidage* takes the study of Anglo Saxon civil defence away from traditional historical and archaeological fields and uses a groundbreaking interdisciplinary approach to examine warfare and public responses to organised violence through their impact on the landscape By bringing together the evidence from a wide range of archaeological onomastic and historical sources the authors are able to reconstruct complex strategic and military landscapes and to show how important detailed knowledge of early medieval infrastructure and communications is to our understanding of Anglo Saxon preparedness for war and to the situating of major defensive works within their wider strategic context The result is a significant and far reaching re evaluation of the evolution of late Anglo Saxon defensive arrangements Winner of the 2013 Verbruggen prize given annually by De Re Militari society for the best book on medieval military history

**The Ancient Ways of Wessex** Alexander Langlands, 2019-11-30 *The Ancient Ways of Wessex* tells the story of Wessex s roads in the early medieval period at the point at which they first emerge in the historical record This is the age of the Anglo Saxons and an era that witnessed the rise of a kingdom that was taken to the very brink of defeat by the Viking invasions of the ninth century It is a period that goes on to become one within which we can trace the beginnings of the political entity we have come to know today as England In a series of ten detailed

case studies the reader is invited to consider historical and archaeological evidence alongside topographic information and ancient place names in the reconstruction of the networks of routeways and communications that served the people and places of the Anglo Saxon kingdom of Wessex Whether you were a peasant pilgrim drover trader warrior bishop king or queen travel would have been fundamental to life in the early middle ages and this book explores the physical means by which the landscape was constituted to facilitate and improve the movement of people goods and ideas from the seventh through to the eleventh centuries What emerges is a dynamic web of interconnecting routeways serving multiple functions and one perhaps even busier than that in our own working countryside A narrative of transition one of both of continuity and change provides a fresh and alternative window into the everyday workings of an early medieval landscape through the pathways trodden over a millennium ago

**The Queenship of Mathilda of Flanders, C. 1031-1083** Laura L. Gathagan,2025-04-08 The first full scale scholarly treatment of Mathilda of Flanders d 1083 duchess of Normandy and post Conquest queen of England In Norman England Mathilda s unique practice of queenship was robustly public It was characterized by an unapologetic embrace of both new and traditional institutions military lordship royal justice monastic foundation and ecclesiastical reform documentary initiatives and cultural networks Although she may appear only glancingly in the chronicle story sources of her day she is everywhere else governing in documents and charters articulating her identity in architecture expressing her authority through innovative custom made liturgies handing down juridical sentences and participating in the most fundamental theological issues of her day However unlike her husband William the Conqueror her impact and influence have not ensured her a place of centrality in modern memory This book redresses that imbalance Moving away from the traditional chronological approach to a woman s life its thematic chapters use the metaphor of Mathilda s body to center her actions creations and speech showing how Mathilda embodied power in a world often construed as primarily masculine It thus brings back into focus the policies she championed the strategies she pursued and the shape of her authority

**The Body Legal in Barbarian Law** Lisi Oliver,2011-01-01 The sixth to ninth centuries saw a flowering of written laws among the early Germanic tribes These laws include tables of fines for personal injury designed to offer a legal non violent alternative to blood feud Using these personal injury tariffs The Body Legal in Barbarian Law examines a variety of issues including the interrelationships between victims perpetrators and their families the causes and results of wounds inflicted in daily life the methods successes and failures of healing techniques the processes of individual redress or public litigation and the native and borrowed developments in the various barbarian territories as they separated from the Roman Empire By applying the techniques of linguistic anthropology to the pre history of medicine anatomical knowledge and law Lisi Oliver has produced a remarkable study that sheds new light on early Germanic conceptions of the body in terms of medical value physiological function psychological worth and social significance

**Anglo-Saxon England: Volume 35** Malcolm Godden,Simon Keynes,2008-01-17 Anglo Saxon England is the only publication which consistently

embraces all the main aspects of study of Anglo Saxon history and culture linguistic literary textual palaeographic religious intellectual historical archaeological and artistic and which promotes the more unusual interests in music or medicine or education for example Articles in volume 35 include Record of the twelfth conference of the International Society of Anglo Saxonists at Bavarian American Centre University of Munich 1 6 August 2005 Virgil the Grammarian and Bede a preliminary study Knowledge of whelk dyes and pigments in Anglo Saxon England The representation of the mind as an enclosure in Old English poetry The origin of the numbered sections in Beowulf and in other Old English poems An ethnic dating of Beowulf Hrothgar s horses feral or thoroughbred thelthryth of Ely in a lost calendar from Munich Alfred s epistemological metaphors eagan modes and scip modes Bibliography for 2005 **Political Assemblies in the Earlier Middle Ages** P. S. Barnwell, Marco Mostert, 2003 Were political assemblies in the earlier Middle Ages convened to confirm decisions already taken elsewhere or were they genuinely deliberative How if at all did political assemblies create consensus Other recurrent themes in this study relate to the levels of the political and administrative hierarchy at which assemblies were held who attended such gatherings how they were conducted and where they were held A distinctive feature of the volume is that some contributors bring archaeological as well as historical evidence to bear Political Assemblies brings together more than a dozen scholars from a range of geographical political and historiographical backgrounds and traditions history archaeology and philology The papers offer a coherent thread of analysis running from the immediate successor states of the Roman Empire through to the Carolingian and Ottonian periods bridging the millennium and into the twelfth century The geographic coverage from Scandinavia to Catalonia Ireland to Hungary is admirably wide **Archaeologia Cantiana** ,2006

Archaeology of Medieval Europe: Eighth to twelfth centuries AD James Graham-Campbell, Magdalena Valor, 2007 The two volumes of The Archaeology of Medieval Europe will together comprise the first complete account of medieval archaeology across Europe Archaeologists from academic institutions in 15 countries are collaborating to produce these two books of 16 thematic chapters each Nomina ,2005 **Literacy in Medieval and Early Modern Scandinavian Culture** Pernille Hermann, 2005 Over recent decades the concept of literacy has been an important field of discussion in Medieval and Early Modern studies and questions concerning the uses of literacy the number of literates differing writing systems modes of communication and the interaction between orality and literacy have occupied researchers from various disciplines The aim of this volume is to introduce Scandinavian literacy to the international field of research On the one hand to provide a basis that can contribute to a better general understanding of literacy Because of the volume s interdisciplinary approach a relatively wide range of material is invoked to illuminate the subject matter **Peace and Protection in the Middle Ages** Thomas Benedict Lambert, David W. Rollason, Pontifical Institute of Mediaeval Studies, 2009 That kings prelates and even lowly freemen were under certain specified conditions capable of offering protection or peace to others usually their inferiors is relatively well known That a breach of this protection might entitle or indeed oblige the protector to take action against the

violator is similarly well understood However this protective dynamic has rarely received direct scholarly attention despite its being evident in an extraordinary range of contexts The emotional aspects of protection the honour and love associated with the bond it creates and the shame and anger that accompany its breach resonate in both heroic and chivalric ideals whilst in legal fiction at least the king's protection or peace would come to underpin the common law of trespass Such a broad sweep taking in social legal religious and cultural elements suggests that protection as a concept may have a wider significance than its marginal role in current historiography would indicate Indeed the influence of protection both in forming social bonds and in providing a framework for the legitimate use of force suggests that the concept could serve as a valuable counterpoint to more traditional institutional understandings of power This book explores peace and protection as a fundamental motor of medieval society across a broad geographical and chronological span brings together literary legal and historical studies making use of a wide range of approaches and focuses scholarly attention as never before on the concept of peace and protection viewed in relation to kings and lords charity and mercy and the action of feud and vendetta

*International Medieval Bibliography*, 2005 Lists articles notes and similar literature on medieval subjects in journals Festschriften conference proceedings and collected essays Covers all aspects of medieval studies within the date range of 450 to 1500 for the entire continent of Europe the Middle East and North Africa for the period before the Muslim conquest and parts of those areas subsequently controlled by Christian powers *Royal Estates in Anglo-Saxon Wessex* Ryan Lavelle, 2007 This study a revisiting of the author's PhD thesis looks at Royal landholding in the Wessex shires of Hampshire and Dorset in the later Anglo Saxon period It analyses the techniques used for estate management across the different categories of landholding and examines the role of role agents ***Studia Hibernica***, 2005 ***Landscape History***, 2005
