Indigenous and Minority Placenames Ian D. Clark, Luise Hercus, Laura Kostanski, 2014-08-01 This book showcases current research into Indigenous and minority placenames in Australia and internationally Many of the chapters in this volume originated as papers at a Trends in Toponymy conference hosted by the University of Ballarat in 2007 that featured Australian and international speakers The chapters in this volume provide insight into the quality of toponymic research that is being undertaken in Australia and in countries such as Canada Finland South Africa New Zealand and Norway The research presented here draws on the disciplines of linguistics geography history and anthropology The book includes meticulous studies of placenames in central NSW and the Upper Hunter region Gundungurra cave names western Arnhem Land Northern Cape York Peninsula and Mount Wheeler in Queensland saltwater placenames around Mer in the Torres Strait and the Kurna in South Australia Aboriginal Place Names Alexander Wyclif Reed, 1998 A W Reed This new edition gives thousands of Aboriginal meanings from all over Australia So many of our place names are derived from Aboriginal words but their origins and meanings are unknown to most Australians This new edition of Aboriginal Place Names gives thousands of Aboriginal meanings from all over Australia plus many new entries for places that have recently been given Aboriginal names

Aboriginal Placenames Luise Hercus, Harold Koch, 2009-10-01 Aboriginal approaches to the naming of places across Australia differ radically from the official introduced Anglo Australian system However many of these earlier names have been incorporated into contemporary nomenclature with considerable reinterpretations of their function and form Recently state jurisdictions have encouraged the adoption of a greater number of Indigenous names sometimes alongside the accepted Anglo Australian terms around Sydney Harbour for example In some cases the use of an introduced name such as Gove has been contested by local Indigenous people The 19 studies brought together in this book present an overview of current issues involving Indigenous placenames across the whole of Australia drawing on the disciplines of geography linguistics history and anthropology They include meticulous studies of historical records and perspectives stemming from contemporary Indigenous communities The book includes a wealth of documentary information on some 400 specific placenames including those of Sydney Harbour the Blue Mountains Canberra western Victoria the Lake Eyre district the Victoria River District and southwestern Cape York Peninsula Important Collection of Americana from the Library of W.H.
