Library of Congress Subject Headings Library of Congress,2005 *Aboriginal Art and Australian Society* Laura Fisher,2016-05-30 This book is an investigation of the way the Aboriginal art phenomenon has been entangled with Australian society s negotiation of Indigenous people s status within the nation Through critical reflection on Aboriginal art s idiosyncrasies as a fine arts movement its vexed relationship with money and its mediation of the politics of identity and recognition this study illuminates the mutability of Aboriginal art s meanings in different settings It reveals that this mutability is a consequence of the fact that a range of governmental activist and civil society projects have appropriated the art s vitality and metonymic power in national public culture and that Aboriginal art is as much a phenomenon of visual and commercial culture as it is an art movement Throughout these examinations Fisher traces the utopian and dystopian currents of thought that have crystallised around the Aboriginal art movement and which manifest the ethical conundrums that underpin the settler state condition

years in relation to the nature and peculiar concerns of contemporary non Western art especially on how Contemporary Australian Aboriginal Art is perceived received and read in significant parts of the public where cross cultural exchange occurs Significant areas of research in relation to Contemporary Indigenous Art are not only certain institutions within the art world such as art centres art galleries and museums but also public areas like universities government bureaus and particularly touristic institutions as a vast majority of non indigenous people experience non Western art in this context only

Rattling Spears Ian McLean,2016-06-15 Large bold and colorful indigenous Australian art sometimes known as Aboriginal art has made an indelible impression on the contemporary art scene But it is controversial dividing the artists purveyors and collectors from those who smell a scam Whether the artists are victims or victors there is no denying the impact of their work in the media on art collectors and the art world at large and on our global imagination How did Australian art become the most successful indigenous form in the world How did its artists escape the ethnographic and souvenir markets to become players in an art market to which they had historically been denied access Beautifully illustrated this full stunning account not only offers a comprehensive introduction to this rich artistic tradition but also makes us question everything we have been taught about contemporary art Australian Painting, 1788-1990 Bernard Smith,Terry E.

Smith,1991 With the three additional chapters on Australian painting since 1970 by Terry Smith **Rethinking Australia's Art History** Susan Lowish,2018-05-30 This book aims to redefine Australia s earliest art history by chronicling for the first time the birth of the category Aboriginal art tracing the term s use through published literature in the late eighteenth nineteenth and early twentieth centuries Susan Lowish reveals how the idea of Aboriginal art developed in the European imagination manifested in early literature and became a distinct classification with its own criteria and form Part of the larger story of Aboriginal European engagement this book provides a new vision for an Australian art history reconciled with its colonial origins and in recognition of what came before the contemporary phenomena of Aboriginal art **Aboriginal**
