Left Turn Tim Groseclose,2024-05-01 A leading political scientist provides a rigorous and revealing analysis of liberal media bias I m no conservative but I loved Left Turn Steven Levitt author of Freakonomics Dr Tim Groseclose a professor of political science and economics at UCLA has spent years constructing precise quantitative measures of the slant of media outlets He does this by measuring the political content of news as a way to measure the PQ or political quotient of voters and politicians Among his conclusions are i all mainstream media outlets have a liberal bias and ii while some supposedly conservative outlets such the Washington Times or Fox News S pecial Report do lean right their conservative bias is less than the liberal bias of most mainstream outlets Groseclose contends that the general leftward bias of the media has shifted the PQ of the average American by about 20 points on a scale of 100 the difference between the current political views of the average American and the political views of the average resident of Orange County California or Salt Lake County Utah With Left Turn readers can easily calculate their own PQ to decide for themselves if the bias exists This timely much needed study brings fact to this often overheated debate

War Stories & Other Lies Jerry Key, 2020-10-23 Born August 1944 shortly before the end of WWII Jerry was always fascinated by rumors of peace and prosperity. Unfortunately, he had siblings and cousins that constantly cracked him on the head and stole his allowance. He entered elementary school called grade school in the old days and soon found many friends that also cracked him on the head and stole his money. He led a life of poverty so severe he couldn't even afford a camera to take pictures of his measly existence. He survived by eating beans and potatoes and cornbread nearly every meal. Finally, he entered Valley High School and soon rose to the top of his class, well pretty close as vice president and prospered by using all the techniques used on him to crack heads and steal the money of his classmates. College during the 60s was a learning experience. Mostly, he learned he didn't want to work all his life, so upon graduation, he joined the USAF and became the self-proclaimed world's greatest fighter pilot. After a year's vacation in Vietnam and three years in England, he settled in Albuquerque, New Mexico, where he continued to fly fighter planes for the New Mexico Air National Guard and owned a couple businesses. He became a real estate tycoon, i.e. slum lord, and finally went to work for Continental Airlines as a pilot, retiring in 2004 with over fifteen thousand hours flying time. He now is a land baron, thirty acres, and lives on his estate near Savannah, Tennessee, with his wife and dog. Unfortunately, his current wife cracks him on the head and takes his money. Some things in life never change. In this surprisingly funny memoir, writer Jerry Key looks back at his life and offers a comical and uncanny view from childhood mishaps to retirement, some sixty years later, but he reveals valuable life lessons that apply to us all. Most of all, this book provides a journey of living life and enduring life experiences with the insight of wisdom and a positive outlook.
