About Time Too:

A Time to Die Hilda Lawrence, 2018-10-17 Just as he encountered murder while off duty in *Blood upon the Snow* detective Mark East once again finds his vacation interrupted by a mystery Perhaps it was a mistake to return to the same small town On his last visit the streets of Crestwood lay buried in snow This time blazing heat overwhelms the sleepy resort community In the cool of evening locals and summer visitors gather for a church supper Afterward one guest fails to return to the hotel but East refuses to take an interest reasoning that an attractive young woman might have any number of more interesting prospects But everyone insists that it s not like Mary Cassidy to suddenly disappear citing her pleasant ladylike behavior and her kindness to a motherless child As East s host Sheriff Perley Wilcox uncovers further details about the missing woman the detective gradually becomes more and more drawn into the case until his concern is captured by a grotesque discovery in the town s well The suspense builds as East investigates Mary s background and learns that the retiring gentlewoman wasn t at all what she seemed to be and that time is running out for the next victim

About Time

Tim Aldrich, 2017-09-08 Where does all the time go Despite the burgeoning army of machines designed to save us time from cars and aeroplanes to dishwashers and microwaves we don t seem to have any more of it on our hands We simply fill the space we clear with more things to do consuming more spending more and then look around for new ways of saving time And so we spiral onwards upwards ever faster Being busy has become a habit and a habit that gives us high status busy people are important people The business of business is busy ness We are moving from a world in which the big eats the small to a world where the fast eats the slow But the fallout from a society hooked on speed is everywhere It s affecting our health 60 per cent of the adult population in the UK report that they suffer from stress and more than half of these say that this has worsened over the last 12 months It s affecting our family life with a quarter of British families sharing a meal together only once a month And it affects our environment too air travel is a major source of carbon dioxide emissions accelerating climate change as we speed around the world And the faster we live the faster we consume the faster we waste energy and the faster we pollute the planet The faster we seem to be running out of time Is there something fundamentally wrong with the structure and values of this high speed society What are we running from and what are we running towards Sustainable development is all about time It s about trying to safeguard the health of the planet and the people it supports indefinitely unconstrained by time The idea of time offers a novel perspective on what sustainable development is all about Looking at issues affecting society and the environment through the prism of time conveys the urgency of the challenge and leads us to solutions we might not have thought of before *About Time* edited by the think tank Forum for the Future brings together ten of the world s leading thinkers and writers including Will Hutton Baroness Mary Warnock Sir Martin Rees Ghillean Prance Jay Griffiths the author of the bestselling *Pip Pip* and Jonathon Porritt from disciplines including biology business sociology ethnography astronomy philosophy politics history and sustainability in a collection of intriguing essays exploring the issue of

time and how it relates to the environment economy and society The first half of this collection looks at different dimensions of time from the history of time as a social phenomenon and cultural notions of time to cosmological time and the difference between human and machine time These think pieces are followed by a series of more practical solutions oriented contributions looking at how we deal with time in different contexts from the slow food movement and time banks to long term thinking in politics and what we can individually do to cope with the speed society Contributions are liberally interspersed with boxes and brief pieces offering bite sized facts figures and insights relating to time and our everyday lives About Time is a high profile collection aimed at creating debate about where the values of our contemporary society are taking us It will foster reflective thinking about different aspects of time using the concept of time to communicate and illuminate the idea of sustainable development and question our idolatry of speed In doing so it aims to inspire and help decision makers in business government and elsewhere to appreciate the challenges of sustainable development and inspire individuals to create change in their own lives For readers of No Logo and Longitude this book provides a thought provoking twist bringing together time and sustainability in a refreshing provocative and accessible way

Just in Time to be Too Late Peta Mathias,2009-10-26 In her bestselling guide Can We Help it if We re Fabulous the irrepressible Peta Mathias shared her thoughts on being a woman Now with Just in Time to be Too Late she turns her attention to what it means to be a man in the 21st century What makes men cry Why are bad boys so irresistible What exactly is the point of sport To what extent is a man s self worth connected to his job What do men look for in a relationship Does a man ever get over his first love Why do men lie What does he need to be happy And of course why are men like buses These are just some of the vexing questions Peta looks for answers to Though she has been married and has had her fair share both of meaningful relationships and flirtatious dalliances Peta is the first to admit that she knew very little about the opposite sex when she began work on this book A virgin would know more about men than me because she s probably listened more Consequently Just in Time to be Too Late is an account of Peta s own discoveries as she delves deeper into the mysterious world of men a highly personal and frequently hilarious pilgrimage that will resonate with women everywhere
