Forrest,Penelope Harnett,Ian Menter,Elizabeth Newman,2013-11-26 First Published in 1995 This innovative series is an ideal means of supporting professional practice in the post Dearing era when a new focus on the quality of teaching and learning is possible The series promotes reflective teaching and active forms of pupil learning The books explore the implications of these commitments for curriculum and curriculum related issues This book has emerged out of the collective experience of six colleagues who work together at the Faculty of Education of the University of the West of England in Bristol The twin strands here are a social constructivist model of learning and a reflective teaching model of pedagogy Through reflecting on our experiences and evaluating their intentions practices and outcomes not only do we learn but we also enrich the learning of those children pupils and students with whom we are working [American Series](#) ,1892

The North Korean Economy Nicholas Eberstadt,2017-09-04 Viewed from afar North Korea may appear bizarre or positively irrational But as Nicholas Eberstadt demonstrates in this meticulously researched volume there is a grim coherence to North Korea s political economy and a ruthless logic undergirding it one that unreservedly subordinates economic welfare to augmentation of political power Thus paradoxically even as official policies and practices consign the DPRK economy to a perilous realm between crisis and catastrophe the country s leadership maintains unchallenged domestic control and has actually managed to increase its international influence Through painstaking collection of hard to uncover data and careful analysis Eberstadt provides a quantitative tableau of North Korea s terrible failure in its economic race against South Korea its stubborn adherence to policies all but guaranteed to stifle growth and undermine economic performance and the longstanding official effort to ignore or mitigate pressures for economic reform Eberstadt is skeptical of optimistic accounts from South Korea and elsewhere suggesting that the North Korean leadership is interested in resolving the current nuclear impasse and getting on

with the business of reform and development So long as Pyongyang s rulers entertain the ambition of reunifying the Korean peninsula on its own terms Eberstadt argues economic reforms worthy of the name will be subversive of state authority and vigilantly resisted by Pyongyang s rulers This authoritative volume has received widespread attention from Asian specialists well as those concerned with nuclear proliferation and world peace and international relations professionals in general
