

"Hagen's writing flows in a tranquil way, like a spring trickling up effortlessly from the earth. One tends to stop judging it and just appreciate it for its own sake. Since this appreciation is his advice for dealing with everything, the sentences themselves actually create what they are describing."

Interreligious Dialogue and Cultural Change Catherine Cornille, Stephanie Corigliano, 2012-08-17 The challenges and changes that take place when religions move from one cultural context to another present unique opportunities for interreligious dialogue In new cultural environments religions are not only propelled to enter into dialogue with the traditional or dominant religion of a particular culture religions are also invited to enter into dialogue with one another about cultural changes In this volume scholars from different religious traditions discuss the various types of dialogue that have emerged from the process of acculturation While the phenomenon of religious acculturation has generally focused on Western religions in non Western contexts this volume deals predominantly with the acculturation in the United States It thus offers a fresh look at the phenomenon of acculturation while also lifting up an often implicit or ignored dimension of interreligious dialogue

Fire Monks Colleen Morton Busch, 2011-07-07 The vivid and electrifying true story of how five monks saved the oldest Zen Buddhist monastery in the United States from wildfire San Francisco Chronicle When a massive wildfire surrounded Tassajara Zen Mountain Center five monks risked their lives to save it A gripping narrative as well as a portrait of the Zen path and the ways of wildfire Fire Monks reveals what it means to meet a crisis with full presence of mind

Zen master and author of the classic *Zen Mind Beginner's Mind* Shunryu Suzuki Roshi established a monastery at Tassajara Hot Springs in 1967 drawn to the location's beauty, peace, and seclusion. Deep in the wilderness east of Big Sur, the center is connected to the outside world by a single unpaved road. The remoteness that makes it an oasis also makes it particularly vulnerable when disaster strikes. If fire entered the canyon, there would be no escape. More than two thousand wildfires, all started by a single lightning storm, blazed across the state of California in June 2008. With resources stretched thin, firefighters advised residents at Tassajara to evacuate early. Most did. A small crew stayed behind, preparing to protect the monastery when the fire arrived. But nothing could have prepared them for what came next. A treacherous shift in weather conditions prompted a final order to evacuate everyone, including all firefighters. As they caravanned up the road, five senior monks made the risky decision to turn back. Relying on their Zen training, they were able to remain in the moment and do the seemingly impossible: to greet the fire not as an enemy to defeat but as a friend to guide. Fire Monks pivots on the kind of moment some seek and some run from when life and death hang in simultaneous view. Novices in fire, but experts in readiness, the Tassajara monks summoned both intuition and wisdom to face crisis with startling clarity. The result is a profound lesson in the art of living.

The Web of Meaning Jeremy Lent, 2021-07-12 A compelling foundation for a new story of interconnectedness showing how, as our civilization unravels, another world is possible. Award-winning author Jeremy Lent investigates humanity's age-old questions: Who am I? Why am I? How should I live? From a fresh perspective, weaving together findings from modern systems thinking, evolutionary biology, and cognitive neuroscience with insights from Buddhism, Taoism, and Indigenous wisdom, the result is a breathtaking accomplishment: a rich, coherent worldview based on a deep recognition of connectedness within ourselves, between each other, and with the entire natural world. As our civilization careens toward a precipice of climate breakdown, ecological destruction, and gaping inequality, people are losing their existential moorings. Our dominant worldview of disconnection, which tells us we are split between mind and body, separate from each other and at odds with the natural world, has passed its expiration date. Yet another world is possible. *The Web of Meaning* offers a compelling foundation for the new story that could enable humanity to thrive sustainably on a flourishing Earth. It's a book for everyone looking for deep and coherent answers to the crisis of civilization.

Behind the Altar Linda E. Olds, 2026-02-26 In an age of increasing religious diversity and pluralism, many people resonate to spirituality beyond only one tradition. But how to find a path that has depth, discernment, and comprehensiveness, connecting to all one knows? Drawing from cross-cultural religious traditions, psychological research, and personal inquiry, Olds offers vocabulary, concepts, and maps of self and world as resources for exploring the ways psychological and spiritual development intersect and interweave, deepening understanding of one's core tradition as well. An integrative model differentiates soul, inner wholeness, and spirit, nondual awareness as two complementary dimensions of the spiritual search that echo tendencies West and East.
