Buddhist Iconography Compact Edition:

Buddhist Iconography, 1988 Buddhist iconography Lokesh Chandra, 1991 Dictionary of Buddhist Iconography Lokesh Chandra, International Academy of Indian Culture, 1999 The Dictionary details the characteristic attributes chronology and symbolism of over twelve thousand main and minor deities It reflects the extraordinary cultural literary aesthetic and spiritual achievements of several nations of Asia over two millennia It will help to identify the masterpieces along with the profusion of masters and divine beings around them The last few decades have seen an exuberant flourishing of the study and popularisation of the patrimony of Buddhist art for its aesthetic magnificence This Dictionary will add a dimension of precision and depth of perception to the visual tradition of paintings and sculptures *Dictionary of Buddhist Iconography: Sakyamuni-Sparsavajra* Lokesh Chandra, 1999 *Tibetan Inscriptions*, 2013-07-01 Inscriptions are a rather neglected field within Tibetan Studies because they are often located in places that are not easily accessible for both geographical and political reasons It is thus especially welcome that two of the contributions to this volume deal with inscriptions documented on recent field trips to Tibet Benjamin Wood discusses an inscription in Zha lu that relates an enigmatic conflict in the history of the monastery and Kurt Tropper looks into an epigraphic cycle on the life of the Buddha in Tsaparang Moreover Nathan Hill provides a new interpretation of the beginning of the famous Rkong po inscription and Kunsang Namgyal Lama surveys the various kinds of texts found on tsha tshas An extra level of reflection is added to the volume by Cristina Scherrer Schaub s methodological considerations on the classification and interpretation of inscriptions

Buddhist Iconography Lokesh Chandra, Raghu Vira, 1991 The rich Buddhist heritage of Tibet is a revelation of the depths of transic meditations of great Masters which have been translated into the majestic abundance of visive symbols These symbols take the form either of images or of thanka scrolls painted on linen as well as on silk To afford an identity to the astonishing world of beauty it becomes imperative to bring out a complete pantheon of Tibetan deities In the present work we have reproduced the pantheon of 500 deities and teachers besides four others **The Origins of Himalayan Studies** David Waterhouse, 2004-10-28 Brian Hodgson lived in Nepal from 1820 to 1843 during which time he wrote and published extensively on Nepalese culture religion natural history architecture ethnography and linguistics Contributors from leading historians of Nepal and South Asia and from specialists in Buddhist studies art history linguistics ornithology and ethnography critically examine Hodgson s life and achievement within the context of his contribution to scholarship Many of the drawings photographed for this book have not previously been published *A Bull of a Man* John Powers, 2009-10-19 The androgynous asexual Buddha of contemporary popular imagination stands in stark contrast to the muscular virile and sensual figure presented in Indian Buddhist texts In early Buddhist literature and art the Buddha s perfect physique and sexual prowess are important components of his legend as the world s ultimate man He is both the scholarly religiously inclined brahman and the warrior ruler who excels in martial arts athletic pursuits and sexual exploits The Buddha

effortlessly performs these dual roles combining his society's norms for ideal manhood and creating a powerful image taken up by later followers in promoting their tradition in a hotly contested religious marketplace In this groundbreaking study of previously unexplored aspects of the early Buddhist tradition John Powers skillfully adapts methodological approaches from European and North American historiography to the study of early Buddhist literature art and iconography highlighting aspects of the tradition that have been surprisingly invisible in earlier scholarship The book focuses on the figure of the Buddha and his monastic followers to show how they were constructed as paragons of masculinity whose powerful bodies and compelling sexuality attracted women elicited admiration from men and convinced skeptics of their spiritual attainments
