The End of Empire in Uganda Spencer Mawby, 2020-05-14 The negative legacy of the British empire is often thought of in terms of war and economic exploitation while the positive contribution is associated with the establishment of good governance and effective modern institutions In this new analysis of the end of empire in Uganda Spencer Mawby challenges these preconceptions by explaining the many difficulties which arose when the British attempted to impose western institutional models on Ugandan society Ranging from international institutions including the Commonwealth to state organisations like the parliament and army and to civic institutions such as trade unions the press and the Anglican church Mawby uncovers a wealth of new material about the way in which the British sought to consolidate their influence in the years prior to independence The book also investigates how Ugandans responded to institutional reform and innovation both before and after independence and in doing so sheds new light on the emergence of the notorious military dictatorship of Idi Amin By unpicking historical orthodoxies about 20th century imperial history this institutional history of the end of empire and the early years of independence offers an opportunity to think afresh about the nature of the colonial impact on Africa and the development of authoritarian rule on the continent

Decolonising State and Society in Uganda Katherine Bruce-Lockhart, Jonathon L. Earle, Nakanyike Musisi, Edgar C. Taylor, 2022 Key book on the debates surrounding the knowledge economy and decolonialization of African Studies that brings the subject up to date for the 21st century Decolonization of knowledge has become a major issue in African Studies in recent years brought to the fore by social movements such as RhodesMustFall and BlackLivesMatter This timely book explores the politics and disputed character of knowledge production in colonial and postcolonial Uganda where efforts to generate forms of knowledge and solidarity that transcend colonial epistemologies draw on long histories of resistance and refusal Bringing together scholars from Africa Europe and North America the contributors in this volume analyse how knowledge has been created mobilized and contested across a wide range of Ugandan contexts In so doing they reveal how Ugandans have built disputed and reimagined institutions of authority and knowledge production in ways that disrupt the colonial frames that continue to shape scholarly analyses and state structures From the politics of language and gender in Bakiga naming practices to ways of knowing among the Acholi the hampering of critical scholarship by militarism and authoritarianism and debates over the names of streets lakes mountains and other public spaces this book shows how scholars and a wide range of Ugandan activists are reimagining the politics of knowledge in Ugandan public life

Missions, States, and European Expansion in Africa Chima J. Korie, Raphael Chijioke Njoku, 2007-11-21 This volume uses a wide range of perspectives to address the

Political Power in Pre-colonial Buganda Richard J. Reid, 2002 Buganda was one of the most favoured of East Africa's inter-lacustrine kingdoms. Blessed with fertile and well-watered soil capable of supporting a relatively dense population, it became a major regional power by the mid-19th century. North America: Ohio University Press; Uganda: Fountain Publishers. Great Kingdoms of Africa John Parker, 2023-03-21 A groundbreaking sweeping overview of the great kingdoms in African history and their legacies written by world-leading experts. This is the first book for nonspecialists to explore the great precolonial kingdoms of Africa that have been marginalized throughout history. *Great Kingdoms of Africa* aims to decenter European colonialism and slavery as the major themes of African history and instead explore the kingdoms, dynasties, and city states that have shaped cultures across the African continent. This groundbreaking book offers an innovative and thought-provoking overview that takes us from ancient Egypt and Nubia to the Zulu Kingdom almost two thousand years later. Each chapter is written by a leading historian interweaving political and social history and drawing on a rich array of sources including oral histories and recent archaeological findings. *Great Kingdoms of Africa* is a timely and vital book for anyone who wants to expand their knowledge of Africa's rich history. The New Larned History for Ready Reference, Reading and Research Josephus Nelson Larned, 1924 **A Political History of Uganda** Samwiri Rubaraza Karugire, 1980 Women, Mission and Church in Uganda Elizabeth Dimock, 2017-04-21 This volume recounts the experiences of female missionaries who worked in Uganda in and after 1895. It examines the personal stories of those women who were faced with a stubbornly masculine administration representative of a wider masculine administrative network in Westminster and other outposts of the British Empire. Encounters with Ugandan women and men of a range of ethnicities, the gender relations in those societies, and relations between the British Protectorate administration and Ugandan Christian women are all explored in detail. The analysis is offset by the author's experience of working in Uganda at the close of British Protectorate status in the 1960s, employed by the Uganda Government Education Department in a school founded by the Uganda Mission.
