It's like jumping into freezing cold water then looking for sharks. There are so many things to consider: contractors, permits, banks, subcontracting, materials, pricing, and so much more. Follow along as the author takes you step by step into his building process from start to finish. You'll learn from his mistakes and successes as you go day by day into what it's like to build the house you've been planning all along. At the end of the build, you too will have the confidence to go forth with your plans. When you finally move in, you'll know it can be a tough and grueling experience but worth every effort.
