Dillon,1997-11-30 Distance education offers the potential to further the mission of the community college in significant ways However the practice of education will not change without corresponding changes in our fundamental views of teaching and learning as these are reflected in the total of our state federal and institutional policies In many ways the community college offers other sectors of higher education a vision for the future This issue of *New Directions for Community Colleges* presents some of the policy issues confronting higher education in the age of distance learning and discusses the implications of these issues for the community college This is the 99th issue of the quarterly journal *New Directions for Community Colleges* For more information on the series please see the Journals and Periodicals section *Books in Print Supplement* ,2002

Implementing Effective Policies for Remedial and Developmental Education Jan M. Ignash, 1997 In 1894 forty percent of college freshmen enrolled in pre collegiate programs to prepare for regular college coursework In Fall 1995 twenty nine percent of entering freshmen enrolled in at least one remedial course The debate over the need for and appropriateness of remedial developmental education at the postsecondary level has spanned a century The upcoming 1998 Reauthorization of the Higher Education Act has added fuel to the debate Legislators educators and the general public are asking questions and raising accountability issues Who needs remedial developmental education Why does the need for it appear to be increasing How much does it cost Who should pay for it Are remedial developmental programs effective Who should provide it Legislators and the public are upset over the perception that they are paying twice for the same education once in high school and once again in college Educators are concerned about the potential devaluation of higher education through the provision of large amounts of remedial developmental education And students too are unhappy with the time and expense necessary to develop English and math skills that they should have learned in high school Each chapter of this volume addresses a specific policy question involved in the debate over remedial developmental education and uses national and state data as well as information from case studies of individual institutions to provide insights into effective approaches to remedial developmental education This is the one hundredth issue of the quarterly journal *New Directions for Community Colleges* For more information on the series please see the Journals and Periodicals section
