The Building Blocks of Russia's Future Military Doctrine Eugene B. Rumer,1994 The report argues that if Russia remains a truncated empire neo imperialism is likely to dominate its national security policy and military doctrine which would be oriented toward reconstituting its internal empire and expanding through force and intimidation into its old spheres of influence in Eastern and Central Europe and Asia

**Military Doctrine** Bert Chapman,2009-09-03 This comprehensive volume provides a thorough overview of 20th and 21st century military doctrines worldwide Military Doctrine A Reference Handbook takes a thorough look at 20th and 21st century military doctrines around the world It excerpts relevant English language scholarly and governmental literature to paint a picture of how military doctrine has developed in recent history what military doctrines are currently operating on the world stage and where military doctrine is heading in the near future The book casts a wide net scanning the relevant government documents international agreements monographs journals conference papers and Internet resources to present a thorough overview of the importance of military doctrine in today s highly unstable world Because military institutions are important formulators of national military doctrine and not merely implementers this book examines the roles played by military organizations around the world With the proliferation of independent military scholars and the widespread influence of their work in the Internet age the book also scans the gray literature and describes its effects on military doctrine

**Security Dynamics in the Former Soviet Bloc** Graeme P. Herd,Jennifer D.P. Moroney,2013-06-17 Security Dynamics in the Former Soviet Bloc focuses on four former Soviet sub regions the Baltic Sea region the Slavic republics the Black Sea region and Central Asia to explore the degree to which democratic security which includes de politicisation of and civilian oversight of the military resolution of conflicts by international cooperation and involvement in international organisations It examines how far states in these regions have developed cooperative foreign and security policies towards their immediate neighbours and key Western states and organisations explores the interplay between internal and external aspects of democratic security building and uses case study examples to show how inter state bi lateral and multi lateral relations are developing

**The New Nuclear Disorder** Stephen J. Cimbala,2016-02-17 In the twenty first century the United States confronts an international system of great complexity and shifting security challenges Among these challenges are those posed by nuclear weapons Instead of becoming obsolete or being marginalized by the end of the Cold War and the demise of the Soviet Union nuclear weapons have become more important to present and future international stability and peace but the relationship is paradoxical On one hand the spread of nuclear weapons to additional states with unsettled grievances or hegemonic

ambitions threatens to destabilize local balances of power and set off regional arms races In addition the possible acquisition by terrorists of nuclear weapons or fissile materials creates a threat that may be beyond deterrence according to hitherto accepted concepts On the other hand nuclear weapons in the hands of other states can contribute to stable deterrence and help to prevent nuclear proliferation to international miscreants Certain cases loom large in the short run that highlight this book s relevance including the possible acquisition and deployment of nuclear weapons by Iran and the continuing tensions created by North Korea s nuclear arsenal The Obama pivot of national security and defense emphasis to Asia reflects not only the growing economic importance of that region but also the growing number of security dilemmas in a region that is already awash in nuclear forces The management of nuclear crises and even the possible need to terminate nuclear wars before they expand beyond a single region are among the possible challenges facing future U S and allied policy makers and military leaders
