*Palestine's Christians and the Nationalist Cause* Erik Freas,2024-12-23 This book provides an historical overview of Palestine s Christian communities and their role in the Palestinian nationalist movement during the late Ottoman and British mandatory periods More than being a history of Palestine s Christian Arabs the book focuses on Palestine s Christians during the formative period of Palestinian Arab national identity attentive to the broader topic of the relationship between nationalism and religion in this case between Arab identity and Islam Whereas until recently historians have tended to assume that national and religious identities are distinct and mostly mutually exclusive things more recent scholarship has addressed the fact that often there exists considerable overlap between the two though it should be noted often in ways that are not by any means inherently exclusive of those not belonging to the majority faith as is the case here The relationship is also an ever changing one hence the final chapter of the book which functions as something of an epilogue regarding the current status of Palestine s Christians vis vis their place in the nationalist cause and relationship with the broader Muslim population The book will be of interest to historians and scholars focused on the modern Middle East Palestinian history Muslim Christian inter communal relations and the relationship between nationalism and religion

**Pre-State Photographic Archives and the Zionist Movement** Rotem Rozental,2023-03-24 By entering and critically re activating the Zionist photographic archive established by the Division of Journalism and Propaganda of the Jewish National Fund this research examines its rippling impact on civil landscapes prior to 1948 in Palestine and its lasting impact on the region to date This study argues that the Zionist movement makes particular use of the machinery of the photographic archive aiming to constitute the boundaries of Palestine as a Jewish state claiming ownership over the land and announcing internationally the success of its enterprise thus substantiating the image it sought to embed as the reality of the land This archive was not stand alone as it was functioning in relation to a vast complicated network of organizational systems and technologies in the Middle East and across the world Crucially this system functioned as a national archive in future tense for a nation state that was not yet in existence seeking to substantiate its regional authority and shape its cultural repository outlining parameters for inclusion and exclusion from its civic space The book will be of interest to scholars working in art history photography history visual culture Jewish studies Israel studies and Middle East studies
