Abebing Mathematics And Science:

Strengthening the Linkages Between the Sciences and the Mathematical Sciences National Research Council, Commission on Physical Sciences, Mathematics, and Applications, Committee on Strengthening the Linkages Between the Sciences and the Mathematical Sciences, 2000-05-05 Over three hundred years ago Galileo is reported to have said The laws of nature are written in the language of mathematics Often mathematics and science go hand in hand with one helping develop and improve the other Discoveries in science for example open up new advances in statistics computer science operations research and pure and applied mathematics which in turn enabled new practical technologies and advanced entirely new frontiers of science Despite the interdependency that exists between these two disciplines cooperation and collaboration between mathematical scientists and scientists have only occurred by chance To encourage new collaboration between the mathematical sciences and other fields and to sustain present collaboration the National Research Council NRC formed a committee representing a broad cross section of scientists from academia federal government laboratories and industry The goal of the committee was to examine the mechanisms for strengthening interdisciplinary research between mathematical sciences and the sciences with a strong focus on suggesting the most effective mechanisms of collaboration *Strengthening the Linkages Between the Sciences and the Mathematical Sciences* provides the findings and recommendations of the committee as well as case studies of cross discipline collaboration the workshop agenda and federal agencies that provide funding for such collaboration *Mathematics, the Science of Patterns* Keith J. Devlin, 1994

Mathematics Keith Devlin, 1996-12-15 The great book of nature said Galileo can be read only by those who know the language in which it is written And this language is mathematics A richly illustrated celebration of the beauty and elegance of this ever evolving language *Mathematics The Science of Patterns* explores the many ways mathematics helps us understand our perceptions of reality both the physical biological and social worlds without and the realm of ideas and thoughts within
