## BOOK REVIEW

---

**Dementia and Mental Illness in Older People – A Practical Guide**  
Elaine Murphy  
2nd Edition, MacMillan, 1993, ISBN 0-333-57969-0,  
200pp, £8.99 (Paperback)

All Accident and Emergency (A & E) departments have their quota of confused clients, some of whom are bound to be elderly. So, although this book is stated as being specifically for carers, I think it would be useful for staff in the A & E department.

Alzheimer's is a word which is bandied about and misused, as is the term 'confusion'. Professor Murphy explains the various kinds of mental illness clearly, and thankfully stresses that dementia is not a natural concomitant of old age. This puts the lie to the laissez-faire 'it's your age' attitude of some doctors and gives a certain amount of hope to relatives.

Professor Murphy states the reality with good basic information to back it up. She puts the whole picture in perspective (p. 5) when she states that 'the elderly mentally-ill are the exceptions. The reason they don't appear so is because the fit and healthy do not claim our attention in the same way.'

Increased knowledge can only be useful. This is an interesting, informative and humorous book, which should enhance the nurse's ability to help both the elderly mentally-ill and their relatives, even if they are not seen in the department for a great length of time.

ELIZABETH MORRIS  
BSc, SRN, RMN, RNT
