Thinking of Others Ted Cohen,2012-04-08 In Thinking of Others Ted Cohen argues that the ability to imagine oneself as another person is an indispensable human capacity as essential to moral awareness as it is to literary appreciation and that this talent for identification is the same as the talent for metaphor To be able to see oneself as someone else whether the someone else is a real person or a fictional character is to exercise the ability to deal with metaphor and other figurative language The underlying faculty Cohen argues is the same simply the ability to think of one thing as another when it plainly is not In an engaging style Cohen explores this idea by examining various occasions for identifying with others including reading fiction enjoying sports making moral arguments estimating one s future self and imagining how one appears to others Using many literary examples Cohen argues that we can engage with fictional characters just as intensely as we do with real people and he looks at some of the ways literature itself takes up the question of interpersonal identification and understanding An original meditation on the necessity of imagination to moral and aesthetic life Thinking of Others is an important contribution to philosophy and literary theory

s amiss when he is approached by a wealthy aristocrat with a lucrative offer The hauntingly pale steely eyed Joshua York doesn t care that the icy winter of 1857 has wiped out all but one of Marsh s dilapidated fleet nor does he care that he won t earn back his investment in a decade York s reasons for traversing the powerful Mississippi are to be none of Marsh s concern no matter how bizarre arbitrary or capricious York s actions may prove Not until the maiden voyage of Fevre Dream does Marsh realize that he has joined a mission both more sinister and perhaps more noble than his most fantastic nightmare and humankind s most impossible dream Christian Standard ,1907
