Gérard,2001 This book is meant to provide an overview of and gather the literature on abortion one of the most divisive issues of our times Honest women and men the world over must deal with this issue in their hearts and minds whether or not they ever face the issue personally It is hard to conceive of a single thinking person who doesn t have an opinion on abortion usually strongly held The arguments are cogent on both sides of the issue We hope that this collection will bring to the attention of readers the publications which shed light

on the fundamental issues involved [Reasonable Faith](#) John Haldane,2010-02-25 In this awaited follow up to his book *Faithful Reason* the well known philosopher and Catholic thinker John Haldane brings his unrivalled insight to bear on questions of the existence of God and the nature and destiny of the human soul His arguments weave elements drawn from philosophy of mind epistemology and aesthetics together with recurrent features of human experience to create a structure that simultaneously frames and supports ideas such as that the cosmos is a creation human beings transcend their material composition and that human fulfilment lies beyond death As in many of his other writings this volume blends themes from Aquinas with insights drawn from analytical philosophy and further establishes John Haldane as the leading analytical thomist

**No Higher Court** Germain Kopaczynski,1995 This book traces the roots of the contemporary abortion debate in the tradition of existential philosophy of the Sartrean type by investigating the work of four feminist writers on abortion each with a specific focus Simone de Beauvoir Mary Daly Carol Gilligan and Beverly Wildung Harrison Beauvoir provides a feminist epistemology crucial to the abortion idea Daly adds a dualist metaphysics to Beauvoir s theory of feminist knowledge Gilligan provides the support of developmental psychology to the abortion project and Harrison furnishes a theological undergirding to support the abortion edifice Finally No Higher Court attempts to envisage a pro life feminism that is able to provide a new world for women without abortion as its linchpin and bedrock

Raising the war on political correctness to a new and higher intellectual level Philip Devine sheds fresh light on the whole question of cultural standards and the fashionable notion of multiculturalism While acknowledging the diversity of ways of life and the differing belief systems that arise from and justify those ways of life the author attacks the current exploitation of diversity to justify a militantly intolerant relativism His wide ranging and erudite work connects cultural issues to our real world existence as biological and historical beings pulling together ideas of bioethics education and the structure and purpose of families This work will be of interest to those fighting the culture wars across the humanities and social and behavioral sciences     *Paperbound Books in Print* ,1992     *International Philosophical Quarterly* ,1993     The
