Morris, Martin K. Mayer, Robert C. Kenter, R. Bruce Anderson, 2021-09-12 *Policy Making and Southern Distinctiveness* examines the uniqueness of southern politics and their policy choices While decades of scholarship on the politics of the American South have focused on partisanship and electoral outcomes as the primary elements of interest in southern politics few works have focused on the more practical outcomes of these political processes specifically comparing state policy choices of southern states to non southern states This book examines six different policy arenas voting access gun control health care reproductive rights water and COVID 19 pandemic response comparing policy choices in states in the South with states in the non South The authors find that the South is distinct in several but not all of the policy arenas examined They conclude that the South as a region is unique because of the exceptional degree of one

party control evident in the South coupled with a long standing preoccupation with partisanship and race based politics Policy Making and Southern Distinctiveness provides valuable insights into how and why states behave in the manner they do and where southern states may diverge from the rest of the country It will be of interest to scholars of southern politics state comparative policy public policy American politics and federalism intergovernmental relations *The Politics of Morality Policy*, 1999 **Clinical Bioethics** James F. Drane, 1994-03 Medical practice is an inherently ethical enterprise More than ever before medical practice requires that medical professionals develop and exercise high ethical standards Health care practitioners who ignore basic concepts of medical ethics risk exposing their patients to serious harm and open themselves and their institutions to charges of malpractice Clinical Bioethics provides for the busy clinical professional a concise comprehensive treatment of the basics in this complex new field Comparative Equality and Anti-Discrimination Law, Third Edition David B. Oppenheimer, Sheila R. Foster, Sora Y. Han, Richard T. Sharp, Yvette M. Alex-Assensoh, 2005 Topless bars casino gambling needle exchange programs for drug addicts there s no question morality issues remain front and center in urban politics Presenting a systematic analysis of culture war issues at the local level Elaine Sharp shows how American cities deal with these ongoing concerns Drawing on a sample of ten strategically chosen cities she explains differences in how municipalities respond to controversies surrounding sex business abortion clinics legalized gambling gay rights and drug use By analyzing the relative importance of subculture economics and institutional arrangements in the disputes she points the way toward richer and more complete understanding of how different cities respond differently to these hot button issues Far more than a statistical study *Morality Politics in American Cities* is a collection of fascinating stories of real people grappling with down to earth issues and real life drama richly informative case studies that will captivate students and interested citizens alike Mayors public health directors activists and others speak their minds about the pros and cons of these controversies Here are officials in one city confronting the Vatican over funding for abortion services those in another battling a local university over its refusal to provide health benefits to gay partners of faculty members and still others mounting a massive community sponsored attack on topless clubs These stories provide detailed evidence to support classifications needed for comparing cities experience with each of the five morality issues They also corroborate inferences drawn from the comparisons by showing what considerations were in play as local officials grappled with these issues Overall the study shows that cultural factors usually dominate policymaking in local

politics except when specific economic interests are at stake and also observes that county level governments are more important than previously thought in terms of morality issue decisions As provocative as it is informative Morality Politics in American Cities demonstrates that such issues same sex marriage for example are multidimensional and often difficult to resolve Its conclusions however contingent mark an important step in the ongoing process of understanding important differences in approaches to these issues and clearly show how moral conflicts continue to define American politics

**State Reproductive Policies and Adolescent Pregnancy Resolution** Theodore J. Joyce, Robert Kaestner, 1995 State laws regulating abortion have increased markedly in the wake of recent Supreme Court decisions We test whether one form of abortion regulation parental involvement laws affects how pregnancies are resolved Specifically we examine whether laws that require minors to notify or obtain consent from a parent before receiving an abortion affect the likelihood that a pregnancy will be terminated We use individual data on births and abortions from three southern states South Carolina Tennessee and Virginia A distinguishing characteristic of our data is the large sample of abortions the quality of reporting and information on individual and county characteristics We detect no significant effects of parental involvement laws on the probability of abortion for minors as a single treatment group a finding contrary to several recent studies We do find however that for non black minors 16 years of age South Carolina s parent consent statute is associated with a 10 percentage point fall in the probability of abortion a relative decline of over 20 percent We believe this to be an upper bound estimate given potential underreporting of induced terminations We also find a comparatively weak relationship between distance from an abortion provider and the probability that a pregnancy is aborted We conclude that minors include their parents in the decision to terminate a pregnancy Other minors seek abortion in a neighboring state Overall the impact of parental involvement laws on the pregnancy resolution of minors is not large
