Buddhist Experience:

The Zen Monastic Experience Robert E. Buswell, Jr., Robert E. Buswell, 1992 Robert Buswell a Buddhist scholar who spent five years as a Zen monk in Korea draws on personal experience in this insightful account of day to day Zen monastic practice Buswell s depiction of Zen reveals a religious tradition that differs radically from the stereotype prevalent in the West Westerners exposed to Zen through English language materials have been offered a picture of an iconoclastic religion that is bibliophobic institutionally subversive aesthetically sophisticated devoted to manual labor and intent solely on sudden enlightenment Its most revered teachers are depicted as torching their sacred religious icons bullying their students into enlightenment rejecting the value of all the scriptures of Buddhism and even denying the worth of Zen itself In discussing the activities of the postulants the meditation monks the teachers and administrators and the support monks of Song gwang sa a major Korean Buddhist monastery Buswell challenges much of this picture In the counterparadigm of Zen offered in the daily lives of the monks Zen s putative iconoclasts are replaced by resolute members of a community dedicated to a methodical regimen of spiritual training Zen s apparent bibliophobia pales to reveal contemplatives learned in classical Chinese and often having extensive experience in Buddhist seminaries And the brash challenge allegedly made to systematizations of religion even to Zen itself fades before monks with strong faith in the arduous way of life they have undertaken The author s treatment lucidly relates contemporary Zen practice to the historical development of the tradition and to Korean history more generally and his intimate sympathetic portrayal of the life of modern Zen monks in Korea provides an innovative and provocative look at Zen from the inside

Ingram,2013-10-23 In *Passing Over and Returning* Paul O Ingram describes his particular dialogue with the world s religions illustrated by his experience of passing over into Hinduism Buddhism Daoism and Confucianism Judaism and Islam and by his return to his home as a Lutheran Christian While religious diversity is not new neither are the questions posed by religious diversity What is new is that more and more people are actively engaged with the world s religions because more and more people are willing to be informed by insights found in religious traditions other than their own This is particularly true among progressive Christians But openness does not necessarily mean rejecting one s own tradition even though persons sometimes convert to another tradition or combine their original religious identity with the identity of another tradition Whether one returns to the home of one s own faith tradition after passing over or assumes a dual religious identity or converts to another tradition all persons engaged in interreligious dialogue undergo processes of creative transformation **The Psychology of Oriental Religious Experience** Katsuji Katō,1915 **The Experience of Buddhism** John Strong,2008 Part of the Religious Life in History Series this comprehensive anthology provides translations of texts illustrative of Buddhist philosophy and doctrine as well as descriptive concrete accounts of Buddhist practices rituals and experiences Author John Strong gives careful consideration to many key aspects of the religion in a wide range of geographic and cultural arenas from Asia to the United States and gives students a sense of Buddhism s historical evolution in each area In addition this new edition of THE EXPERIENCE OF BUDDHISM uniquely offers students a list of pertinent bibliographic suggestions after each reading giving them the opportunity to both enhance their understanding of the material and streamline their research and paper writing process **The Wiley-Blackwell Companion to Inter-Religious Dialogue** Catherine Cornille,2020-06-08 This comprehensive volume brings together a distinguished editorial team including some of the field s pioneers to explore the aims practice and historical context of interfaith collaboration Explores in full the background history objectives and discourse between the leaders and practitioners of the world s major religions Examines relations between religions from around the world moving well beyond the common focus on Christianity to also cover over 12 major religions Features a wealth of case studies on contemporary interreligious dialogue Charts a long term shift away from a competitive rivalry between belief systems and a change in focus towards the more respectful cooperative approach reflected in institutions such as the World Council of Churches Includes up to date commentary on the growing dialogue of recent years written by some of the leading figures working in the field of interfaith discourse *Spiritual Exercises and Their Results* Aelfrida Tillyard,1927 Christians Talk about Buddhist Meditation, Buddhists Talk About Christian Prayer Rita M.
