encompass all those whom God has created **Silenced!** Bruce E. Johansen,2007-05-30 This book is about people whose beliefs and affiliations have opposed powerful interests in the present day United States This eclectic group of people and controversial issues from climate change scientists who have been censored by the Bush administration to Muslims accused of terrorism have one thing in common All of them straddle the limits of what Noam Chomsky has called permissible debate as defined by dominant political and economic institutions and individuals The central thesis is that restriction of free inquiry is harmful to our culture because it inhibits the search for knowledge Johansen presents case studies in the borderlands of free speech in a Jeffersonian cast an intellectual framework assuming that open debate even of unpopular ideas is essential to accurate perception of reality This book is about people whose ideological circumstances have found them opposing established beliefs in our times scholars advocating the Palestinian cause in a very hostile intellectual environment for example as well as climate scientists defending themselves against the de funding of their laboratories by defenders of fossil fuel interests opponents of creation science under assault for teaching what once was regarded as household variety biology a k a Darwinism Marxists in a political system dominated by neoconservatives The central thesis that unites this diverse array of controversies is that shutting down free inquiry most notably for points of view deemed unpopular dumbs us all down by restraining the search for knowledge which demands open inquiry We have been told when going to war as in Iraq that freedom isn t free the unstated assumption being that our armed forces are fighting and dying to safeguard our civil rights at home and abroad During recent years however freedom to inquire and debate without retribution has been under assault in the United States This assault has been carried out under a distinctly Orwellian cast under Newspeak titles such as the Patriot Act parts of which might as well be described more honestly as the Restriction of Freedom of Inquiry Act The information gathered here will interest and probably anger anyone who is concerned with protecting robust free inquiry in a nation that takes seriously its freedom to speak out and to define truth through open debate *Pearson's Magazine* ,1906
