Colors, metallic tinsels, types of wings, proportions, building classic featherwings, metric conversion chart, and more. In 81 step-by-step photos, Alcott builds five representative classic flies and provides dressings for 32 more. Sixteen color plates illustrate many of the most renowned classic flies, as well as feathers, silk, color, and antique tools. This book is a must for all tiers interested in classic fly building. *Building Classic Salmon Flies* Ron Alcott, Richardson, Arleigh D. (Arleigh Dygert), 1995

Building on Tying the Classic Salmon Fly, which demonstrates techniques for tying even the most complicated fully dressed salmon flies. Classic Salmon Fly Materials provides an in-depth look at all the possible ingredients and methods for tying these flies. Starting with the first elements: hook and thread, Radencich gives guidance on working with peacock or ostrich herl and adding body hackles, throat hackles, and collars. He explains which feathers are best suited to each type of hackle and how to fold a hackle and tie in a throat hackle. He then moves on to the most distinguishing element of a fully dressed classic salmon fly: the wings. A discussion of underwings and married and full feather wings follows, with details on the advantages and disadvantages of each kind of feather. Radencich pulls it all together by giving complete instructions for tying the Carnegie, with expert advice on choosing the proper materials and methods.
