**After Tylor** George W. Stocking,1995 Stocking emphasizes the interplay of ethnographic data and anthropological theory offering a richly detailed account of the lives and works of a series of influential figures both well remembered and lesser known against a background of overseas colonial concerns and domestic intellectual ferment Taking as its starting point a major comparative essay published in 1888 by Edward Burnett Tylor the reigning patriarch of evolutionary anthropology the book examines the developing tension between the social evolutionary paradigm and the ethnographic data collected by British missionaries in Australia Lorimer Fison and Melanesia Robert Henry Codrington and the attempts by second generation evolutionary theorists Robertson Smith and Andrew Lang to treat the growth of religion in less purely rationalistic terms than those of Tylor s animism [Class in Twentieth-Century American](#)

Sociology Michael D. Grimes, 1991-05-30 Michael Grimes looks at the voluminous scholarly literature published by American social scientists in the twentieth century and provides an overview and critique of the major theories conceptualizations and measurements of class inequality No book published since the late fifties has had such scope This volume assembles a framework for interpreting and understanding the changing character of the theories and methodologies used by scholars to study class inequality based on two schools of social theory order and conflict each with different assumptions about human nature and society and about the unique roles that class plays in society Grimes contends that theoretical perspectives result from the interaction of the unique biographies of theorists with the sociohistorical ideological and disciplinary settings within which they work and that the relative popularity of perspectives on the subject within the discipline has varied over time as the setting has changed Part I of the book assesses the diverse perspectives on class inequality of early American sociologists Part II examines the rise of functionalism within American sociology and its subsequent application to the issue of class inequality Two conflict perspectives on inequality labeled neo Weberian and neo Marxist theories are discussed in Part III while Part IV provides a summary and concludes that there is evidence of a convergence of sorts among contemporary perspectives on class inequality within the discipline The volume is organized to facilitate use by graduate students and advanced undergraduate students as well as by professional social scientists particularly sociologists The Politics of
