Meyer**

## **Building The Ultimate Dam:**

**Building the Ultimate Dam** Donald C. Jackson, 2005 Offers compelling insight into how designer Eastwood battled government bureaucrats corporate patrons and fellow hydraulic engineers to build seventeen dams in the western U S during the early twentieth century based on his innovative multiple arch design Reprint [The Emergence of Routines](#)

Daniel M. G. Raff, Philip Scranton, 2016-12-06 This book is a collection of essays about the emergence of routines and more generally about getting things organized in firms and in industries in early stages and in transition These are subjects of the greatest interest to students of entrepreneurship and organizations as well as to business historians but the academic literature is thin The chronological settings of the book s eleven substantive chapters are historical reaching as far back as the late 1800s right up to the 1990s but the issues they raise are evergreen and the historical perspective is exploited to advantage The chapters are organized in three broad groups examining the emergence of order and routines in initiatives studying the same subject in ongoing operations and a third focusing specifically on the phenomena of transition The topics range from the Book of the Month Club to industrial research at Alcoa from the evolution of procurement and coordination to project based industries such as bridge and dam building and the governance of defence contracting and from the development of project performance appraisal at the World Bank to the way the global automobile industry collectively redesigned the internal combustion engine to deal with after the advent of environmental regulation The chapters are vivid and thought provoking in themselves and for pedagogical purposes offer excellent jumping off points for discussion of relevant experiences and cognate academic literature [The History of Large Federal Dams](#) David P. Billington, Donald C. Jackson, Martin V. Melosi, 2005 Explores the story of Federal contributions to dam planning design and construction [The Electrical Review](#) ,1928 *Electrical News. Generation, Transmission and Application of Electricity* ,1927 **The Engineering Record, Building Record and Sanitary Engineer** Charles Frederick Wingate, Henry C. Meyer, 1911 **Canadian Engineer** ,1928 **The Canadian Engineer ...** ,1928 **Engineering Record, Building Record and Sanitary Engineer** ,1892 **IA.** ,1997 *Dams* Donald Conrad Jackson, 1997 Dams have been used to control water for thousands of years with the oldest known dam being a small earthen structure in present day Jordan dating to c 4000 BCE Since then cultures throughout the world have practiced the art of dam building and the technology has evolved in myriad ways The papers selected here examine the key technical issues influencing dam construction from ancient times to the early 20th century In addition they illustrate why various human societies have built dams and how social or seemingly non technical factors have influenced the process of dam design Though hydraulic engineering is the primary focus of the book it also reveals a keen interest in questions of water resources and environmental history **The Engineering Record, Building Record and the Sanitary Engineer** ,1905 [Hunger for the Wild](#) Michael L. Johnson, 2007 Americans have had an enduring yet ambivalent obsession with the West as both a place and a state of mind Michael L Johnson considers how

that obsession originated how it has determined attitudes toward and activities in the West and how it has changed over the centuries
