Caught In Crossfire:

Caught in Crossfire Ed Cairns, 1987-08 Since the start of the current troubles Northern Ireland's children have been the focus of much media attention. Various portrayals as innocent victims of adult violence or unwitting accomplices in the continuing conflict have featured widely in the press and on television. But just how accurate is this popular image of children caught in crossfire? Ed Cairns has gone behind the dramatic headline-snatching consequences of growing up in Northern Ireland to examine the more subtle long-term effects. How do children become aware of the violence around them? How do they become involved directly or indirectly in it? How is their moral and political development affected by their situation? And what is it that so effectively ensures the perpetuation of the bitterness and violence between the two sections of the community from generation to generation? These and other key questions are investigated in this important book. It is essential reading for everyone concerned about children growing up in Northern Ireland. *Caught in the Crossfire* Patricia Chater, 1985 *Handgun Crime Control, 1975-1976* United States. It is funded by Knowledge Unlatched. This volume presents women warriors and hero cults from a number of cultures since the early modern period. The first truly global study of women warriors, individual chapters examine figures such as Joan of Arc in Cairo, revenging daughters in Samurai Japan, a transgender Mexican revolutionary, and WWII Chinese spies. Exploring issues of violence, gender fluidity, memory, and nation building, the authors discuss how these real or imagined female figures were constructed and deployed in different national and transnational contexts. Divided into four parts, they explore how women warriors and their stories were created, consider the issue of the violent woman, discuss how these female figures were gendered, and highlight the fate of women warriors who live on. The chapters illustrate the ways in which female fighters have figured in nation-building stories and in the ordering or re-ordering of gender politics, and give the history of women fighters a critical edge. Exploring women as military actors, women after war, and the strategic use of women's stories in national narratives, this intellectually innovative volume
