Caught In The Middle Korean Merchants In Americas Multiethnic Cities:

Caught in the Middle Pyong Gap Min,1996 **Racial and Ethnic Tensions in American Communities** ,1999

Civility in the City Jennifer Lee,2002 Hollywood and the news media have repeatedly depicted the inner city retail store as a scene of racial conflict and acrimony *Civility in the City* uncovers a quite different story Jennifer Lee examines the relationships between African American Jewish and Korean merchants and their black customers in New York and Philadelphia and shows that in fact social order routine and civility are the norm Lee illustrates how everyday civility is negotiated and maintained in countless daily interactions between merchants and customers While merchant customer relations are in no way uniform most are civil because merchants actively work to manage tensions and smooth out incidents before they escalate into racially charged anger *Civility* prevails because merchants make investments to maintain the day to day routine recognizing that the failure to do so can have dramatic consequences How then do minor clashes between merchants and customers occasionally erupt into the large scale conflicts we see on television Lee shows how inner city poverty and extreme inequality coupled with the visible presence of socially mobile newcomers can provide fertile ground for such conflicts The wonder is that they occur so rarely a fact that the media ignore **Racial and Ethnic Tensions in American Communities** United States Commission on Civil Rights,1999 **Racial and Ethnic Tensions in American Communities: The New York report** United States Commission on Civil Rights,1993 Multicultural America Carlos E. Cortés,2013-08-15 This comprehensive title is among the first to extensively use newly released 2010 U S Census data to examine multiculturalism today and tomorrow in America This distinction is important considering the following NPR report by Eyder Peralta Based on the first national numbers released by the Census Bureau the AP reports that minorities account for 90 percent of the total U S growth since 2000 due to immigration and higher birth rates for Latinos According to John Logan a Brown University sociologist who has analyzed most of the census figures The futures of most metropolitan areas in the country are contingent on how attractive they are to Hispanic and Asian populations Both non Hispanic whites and blacks are getting older as a group These groups are tending to fade out he added Another demographer William H Frey with the Brookings Institution told *The Washington Post* that this has been a pivotal decade We re pivoting from a white black dominated American population to one that is multiracial and multicultural *Multicultural America* A Multimedia Encyclopedia explores this pivotal moment and its ramifications with more than 900 signed entries not just providing a compilation of specific ethnic groups and their histories but also covering the full spectrum of issues flowing from the increasingly multicultural canvas that is America today Pedagogical elements include an introduction a thematic reader s guide a chronology of multicultural milestones a glossary a resource guide to key books journals and Internet sites and an appendix of 2010 U S Census Data Finally the electronic version will be the only reference work on this topic to augment written entries with multimedia for today s students with 100 videos with transcripts from Getty Images and Video Vault the Agence

France Press and Sky News as reviewed by the media librarian of the Rutgers University Libraries working in concert with the title s editors *Arab Immigrants in Metropolitan Detroit* Sawzan Hilmi Abdulrahim,2005 **God and Karate on the Southside** Joseph Yi,2009 Recent demographic changes have sparked debate about the civic health of American democracy Democracy requires people of different backgrounds to be disposed toward working together and it requires little noticed meeting places where neighbors interact with each other share their thinking and address common problems As issues of ethnic and social diversity become increasingly foregrounded social scientists find pervasive social distrust and civic withdrawal in racially and ethnically heterogeneous communities whether in big cities Los Angeles or small Yakima WA In this book Yi argues that increasing diversity can revitalize social and civic connectedness if our institutions rise up to the challenge of finding common ground and shared enterprise for people of different backgrounds He highlights two types of organizational actors in the USA One type renews and adapts longstanding religious cultural and civic traditions to a dynamic multiethnic society The second type attempts to introduce Americans to the many religious and cultural traditions from outside the United States These tendencies point to a dynamic many stranded model of liberal plural democracy which fosters and benefits from a variety of group affiliations and types of engagement Organizations that combine internal authoritative community with external plural outreach such as some evangelical mega churches and karate schools connect people across racial and economic divides In these bridging organizations people find a sense of unity among diversity they get to know each other as individuals rather than as representatives of disliked groups Using fieldwork on churches karate schools and other organizations in a racially mixed Chicago Southside neighborhood as well as a broader analysis of race and religion in the 1972 1998 General Social Survey Yi combines classical democratic theory with compelling personal stories and rigorous empirical analysis *God and Karate in the Southside* is the first *Journal of Marketing* ,1999 Apr issues for 1940 42 include Papers and proceedings of the semi annual Dec meeting of the American Marketing Association 1939 41
