**and Translation** Juan C. Sager,1994-04-22 At a time when information technology has become a regular tool of specialised

The advent of automated alternatives to human translation has fundamentally affected the profession its products and the  
relationship between translators and their clients This book presents and discusses the process of translation against this  
background The context in which translation is normally studied is widened in order to re examine the process of translation  
as part of interlingual text production and to analyse the manner in which the new tools affect the product of translation This
