Neuro-linguistic Programming: Affirmations Keith Gilbert, 2014-09-13 neuro linguistic programming Affirmations shows you how to design your own affirmations that are relevant to YOUR life Until we give our unconscious minds new ideas to play with they will do what they have always done If you are aware of habits of thinking or behaviours that you don't like then you might want to give yourself new ideas to change those old habits This is where affirmations can be invaluable and neuro linguistic programming Affirmations is the state of the art in affirmations Keith Gilbert author of my favourite parenting book gets to the heart of the problem with affirmations as they're conventionally presented and offers an alternative way of looking at them that's more respectful of our individuality This is a book written by a thinker and for me this author's perspective is always a mentally stimulating change from that of the hacks and parrots I so frequently encounter in this particular genre Bob Collier Creator of the Parental Intelligence Newsletter *Moral Institutions* Mario I.

Juarez-Garcia, 2025-03-14 Philosophy Politics and Economics PPE is a promising approach to understanding our complex world and addressing contemporary social issues But what is it This textbook aims to straightforwardly explain what PPE is to those who have never heard about it The book uses a unified PPE approach that differs from a simple concatenation of moral philosophy political science and economics so that the reader can appreciate PPE's distinctiveness It makes salient the virtues of PPE as a unified approach through a study of two institutions that have been fundamental in making the world a better place governments and markets By the end the reader will be confronted with the difficulty of finding the right answer to unprecedented questions in a morally diverse society Hopefully readers will be convinced that diversity of our liberal societies is what has made Open Societies peaceful and prosperous despite the permanent frustration that results from living in a complex dynamic and uncertain world **"Wildways."**, 1917 **A STROKE IN TIME** S.L. Sharp, 2024-12-16 This

captivating book intertwines two powerful stories of survival faith and transformation In the first story *A Stroke in Time* Memoir we follow a courageous educator who while returning home from her graduate course in screenwriting at the New York Institute of Technology in New York City survives a life changing accident on the New Jersey Turnpike In gratitude for her survival she vows to honor God by dedicating her life to His purpose This story is a testament to resilience and the power of faith The second story *LAMB O G A Walk Through Life Story in Honor of God* introduces a lamb named Lamb O G who stumbles from a Christmas manger set and embarks on a spiritual journey Nicknamed the Old Blessed One he faces a fight for power against an evil ram ultimately embracing a role as a heroic faith leader in a story of redemption and hope The story brings a unique perspective to the themes of sacrifice resilience and faith Together these stories highlight the strength found in vulnerability and the power of God in overcoming life's challenges They emphasize the transformative impact of near death experiences showing how adversity can inspire a renewed commitment to family and purpose Through her journey the author honors her promise to God finding new meaning and fulfillment as she finally writes *A Stroke in Time* which was the

title of her incomplete screenplay These stories are a tribute to the miracle that saved her life and the faith that sustained her

The Succession Principle David L. McKenna,2014-12-23 Succession is the hot topic in leadership development but the subject has rarely been addressed in Christian literature As a college university and seminary president who experienced three successions in leadership David McKenna is eminently qualified to speak on the subject He begins by introducing us to the Succession Principle What we bring to leadership is important What we do in leadership is more important What we leave from our leadership is most important of all Once our priority shifts from success to succession the door is open to read John 17 as the Prayer of Succession for Jesus In this final report Jesus transfers to his disciples and to us the same enduring trust transforming truth and unifying love that he has received for leadership from his Father With these legacies come specific gifts of succession to complete our task develop disciples advance the kingdom and see the fulfillment of Christ s promise Greater things than these shall you do Succession in the spirit of Christ then is written not in terms of success but in the seamless transition of sustainable gifts culminating in the gift of greater things

The State of the American Mind: Stupor and Pathetic Docility Volume II Amechi Okolo, 2010-06-11 This book The State of the American Mind Stupor and Pathetic Docility Volume One begins to unravel some of the most obvious perplexing embarrassing and enduring problems and contradictions of American history and sociology viz how could the American revolution that started with the most ringing and most inspiring Declarations of human equality in world history end up establishing the most vicious exploitative society the world ever knew Black chattel slavery and only ten percent white enfranchisement etc Further how could men of such great wisdom and intellect like George Washington James Madison Thomas Jefferson and others who were Enlightenment scholars and clearly knew that slavery was despicable and evil because they had variously experienced white servitude and slavery themselves collude to establish and institutionalize the horrible system of Negro chattel slavery in America and also disenfranchised over 90 percent of people of their own race actions that racism could not explain The structural institutional slavery system they established and the resultant consequent racism hobbles America today as it did in the past and forced Eric Holder the Attorney General to declare that America is a nation of cowards when it comes to race discussions Thus this book starts with serious critical discussions of race in America and reveals what no textbook has ever done viz that most early American whites and Blacks were slaves an uncomfortable fact that would shock most Americans because it contradicts the orthodoxy or the dominant narrative that only Blacks were brought here in chains Further the book also shows the year Black slavery started something almost all textbooks got wrong It also shows who was the first Black slave in America something no textbook ever mentions It also shows when and how racism started in America and many other very sensitive and embarrassing but necessary issues that America avoids but must be frankly discussed for America to move forward This book therefore shatters the two dominant themes of Americas history and sociology that Blacks were brought into America in chains as slaves while whites came to America in search of freedom as Harvard educated President Obama famously told us in his race speech Thus the crowning lesson of this book in addition to discussing some critical policy issues like education health care etc is that it discovers the centripetal force of the American society that eluded contemporary Americans because American bosses have laboriously concealed the facts from the public the scary but clearly healthy uniting fact that most Americans are united by their common ancestry their universal history and experience of servitude bond indentures and slavery Nothing is more universal more common and more shared in American history and sociology than the fact that most of our ancestors black and white were servants bond indentures and slaves who were dominated and super exploited by few overlords Colonial America was the preferred dumping ground for British outcasts rejects criminals masterless class vagabonds bond indentures slaves etc until 1776 when Australia replaced America as the British dump for its rejects and surplus citizens Thus that America was a nation founded by British rejects and losers is inherently more rational than the prevailing orthodoxy or the Obama theory of Americas founders that they were great honorable men who journeyed across the ocean for freedom because of the obvious
