Better Part Of Valor More Erasmus Colet:

The Better Part of Valor. More, Erasmus, Colet, and Vives, on Humanism, War, and Peace, 1496-1535. [With Plates, Including Portraits.] Robert Pardee Adams, 1962 The Better Part of Valor Robert P. Adams, 1962

Rethinking Historicism from Shakespeare to Milton Ann Baynes Coiro, Thomas Fulton, 2012-10-22 Reading literary texts in their historical contexts has been the dominant form of interpretation in literary criticism for the past thirty years This collection of essays reflects on the origins of historicism and its present usefulness as a mode of literary analysis its limitations and its future The volume provides a brief history of the practice from its Renaissance origins offering examples of historicist work that not only demonstrate the continuing vitality of this methodology but also suggest new directions for research Focusing on the major figures of Shakespeare and Milton these essays provide important and concise representations of trends in the field Designed for scholars and students of early modern English literature 1500 1700 the volume will also be of interest to students of literature more generally and to historians

The Perennial Satirist Peter Edgerly Firchow, Hermann Josef Real, 2005 This collection of essays primarily honours Bernfried Nugel the teacher and scholar but it also pays homage to Bernfried Nugel the indefatigable worker in the cause of Aldous Huxley studies It is due to this latter manifestation that many of the contributors to this volume know each other personally having met at one or more of the international conferences that Professor Nugel organized and either hosted or co hosted At Munster his home university he has also been instrumental in establishing and heading a center for admirers of Huxley s work along with a fine library of Huxley materials including manuscripts and numerous first editions Series Human Potentialities Studien zu Aldous Huxley zeitgenossischer Kultur Studies in Aldous Huxley Contemporary Culture Vol 7 *Reformations* Carlos M. N.

Eire, 2016-06-28 This fast paced survey of Western civilization s transition from the Middle Ages to modernity brings that tumultuous period vividly to life Carlos Eire popular professor and gifted writer chronicles the two hundred year era of the Renaissance and Reformation with particular attention to issues that persist as concerns in the present day Eire connects the Protestant and Catholic Reformations in new and profound ways and he demonstrates convincingly that this crucial turning point in history not only affected people long gone but continues to shape our world and define who we are today The book focuses on the vast changes that took place in Western civilization between 1450 and 1650 from Gutenberg s printing press and the subsequent revolution in the spread of ideas to the close of the Thirty Years War Eire devotes equal attention to the various Protestant traditions and churches as well as to Catholicism skepticism and secularism and he takes into account the expansion of European culture and religion into other lands particularly the Americas and Asia He also underscores how changes in religion transformed the Western secular world A book created with students and nonspecialists in mind Reformations is an inspiring provocative volume for any reader who is curious about the role of ideas and beliefs in history

The New Crusades Emran Qureshi, Michael Anthony Sells, 2003 Not since the Crusades of the Middle Ages has Islam

evoked the degree of fear hostility and ethnic and religious stereotyping that is evident throughout Western culture today As conflicts continue to proliferate around the globe the perception of a colossal unyielding and unavoidable struggle between Islam and the West has intensified These numerous conflicts both actual and ideological have revived fears of an ongoing clash of civilizations an intractable and irreconcilable conflict of values between Western cultures and an Islam that is portrayed as hostile and alien The New Crusades takes head on the idea of an emergent Cold War between Islam and the West It explores the historical political and institutional forces that have raised the specter of a threatening and monolithic Muslim enemy and provides a nuanced critique of much received wisdom on the topic particularly the clash of civilizations theory Bringing together twelve of the most influential thinkers in Middle Eastern and religious studies including Edward Said Roy Mottahedeh and Fatema Mernissi this timely collection confronts such depictions of the Arab Islamic world showing their inner workings and how they both empower and shield from scrutiny Islamic radicals who operate from similar paradigms of inevitable and absolute conflict

The Renaissance Discovery of Violence, from Boccaccio to Shakespeare Robert Appelbaum, 2021-11-16 Many have wondered why the works of Shakespeare and other early modern writers are so filled with violence with murder and mayhem This work explains how and why putting the literature of the European Renaissance in the context of the history of violence Personal violence was on the decline in Europe beginning in the fifteenth century but warfare became much deadlier and the stakes of war became much higher as the new nation states vied for hegemony and the New World became a target of a shattering invasion There are times when Renaissance writers seem to celebrate violence but more commonly they anatomized it and were inclined to focus on victims as well as warriors on the horrors of violence as well as the need for force to protect national security and justice In Renaissance writing violence has lost its innocence

British Rhetoricians and Logicians, 1500-1660 Edward A. Malone, 2003 Survey of British born writers who produced texts on rhetoric or logic between 1500 and 1660 Provides biographies meant to serve students and scholars of British literature who require information on educators theologians and statesmen who influenced and shaped the rhetorical culture that produced great works of literature

The Origins of Shakespeare Emrys Jones, 1977 The Origins of Shakespeare opens up a number of new approaches to its subject It shows Shakespeare making a dramatic tradition out of the cultural promise of generation immediately preceding his own It makes out a new case for crediting him with a knowledge of Greek tragedy It argues that he remember the dying mystery play tradition building his own tragedies on the passion plays It demonstrated how richly involved are the Henry VI plays Richard III and King John in the cultural and political life of their time Its implications will affect our conception of Shakespeare as a whole
