## **Between Resistance And Collaboration:**

*Between Resistance and Collaboration* Lynne Taylor, 1999 *Between Resistance and Collaboration* is a study of the impact of the Nazi occupation of northern France on the local population. With the establishment of a military dictatorship and a controlled economy, the local population faced serious hardship. This book explores the impact of those changes on the people and how they dealt with the hardships caused by the changes. What is surprising is the variety of means available to the French both to protest against the hardships and force the authorities to do something about them and to evade the plethora of regulations, political and economic, when the authorities were unable or unwilling to act. The range of forms of protest included strikes and work stoppages, pillaging, foot riots, black marketing, and theft. The picture that is painted is of a more complex relationship between occupier and occupied than is typically assumed. [Between Resistance and Collaboration](#)

Lynne Taylor, 1999-12-10 *Between Resistance and Collaboration* is a study of the impact of the changes to the structure of authority and economy brought upon the population of northern France by the Nazi occupation. The book explores the various means by which the local population both protested hardships, forcing the authorities to do something about them, and evaded the plethora of political and economic regulations when the authorities were unable and unwilling to act.

*Paramilitarism and European Society in the 1940s* Gareth Pritchard, Vesna Drapac, 2025-01-29 This book explores the social roots, character, and consequences of paramilitary violence in Europe in the 1940s. Paramilitarism had an impact on the lives of millions of Europeans, yet knowledge about this important topic is partial and fragmented. The general perception of European paramilitary violence in the 1940s derives almost entirely from the resistance/collaboration paradigm. This dichotomous analytical framework makes a clear distinction between politically motivated violence and social violence, such as sexual, criminal, and structural violence. By contrast, in this book, Gareth Pritchard and Vesna Drapac recognise the mutual dependence of all kinds of violence. Their interpretative model, the Regimes of Violence paradigm, which takes account of the changing relationship between state, society, and organised violence, allows us to observe paramilitarism in the round. The Regimes of Violence framework reveals the interconnectedness of paramilitarism with other forms of violence during this period of unprecedented brutality. Today, paramilitary violence is a global phenomenon. It has resulted in the undermining of the rule of law and the erosion of civil society in many different countries on different continents, while at the same time traumatising the countless numbers of innocent people who are caught in its crossfire. With their compelling and timely study, Pritchard and Drapac provide an historical context and present a novel approach for understanding why paramilitarism shows no sign of abating. [Women's Representations of the Occupation in Post-'68 France](#) Claire Gorrara, 1998-08-12 This study examines French women's writing and representations of the Occupation in post-68 France. The author looks at the work of The Women Resisters, those women who were adult resisters during the war, and The Daughters of the Occupation, those who were born during or after the war period. The main contention of the study is that the older generation's nascent

awareness of how gender informs political activism is reworked into explicitly feminist representations of wartime France by younger women writers

**Dealing with Wars and Dictatorships** Liora Israël, Guillaume Mouralis, 2013-12-02 Democratic transitions in Latin America Eastern Europe and South Africa often studied under the conceptual rubric of transitional justice have involved the formation of public policies toward the past that are multifaceted and often ambitious Recent scholarship rarely questions the concepts and categories transposed from one country to another This is true both in the language of political life and in the social sciences examining past oriented public policy especially policy toward ethnic cleansing and the line between the language of political practice legal analysis and scholarly discourse has been quite porous This book examines how these phenomena have been described and understood by focusing recent processes such as the advent of international criminal justice in relation to previous postwar and recent purges By crossing disciplinary approaches and periods the authors pay attention to three main aspects the legal or political concepts used and or the ones mobilized in the academic work the circulation of categories know how and arguments the different levels that can shed light on transitions

**Masculinities, Gender Equality and Crisis Management** Mathias Ericson, Ulf Mellström, 2016-07-22 The overarching mission of the rescue services comprises three main areas of responsibility protection against disasters and accidents crisis management and civil defence This mission covers a long chain of obligations in trying to improve societal prevention capabilities and manage threats risks accidents and disasters concerning generic as well as individual safety It follows a reactive social chain of threat risk crisis crisis management care rehabilitation The authors in this book show that the interesting occupational characteristics of these societal duties are their connection to gender and crisis management in

a wider sense Gendered practices processes identities and symbols are analytical lenses that provide a particular understanding and explanatory base that has received far too little attention in the academic literature This book identifies four major themes in relation to a gendered understanding of the rescue services and more generally emergency work Masculine heroism Intersectional understandings of sexuality class and race Gender and technology Gender equality and mainstreaming processes This book shows how the rescue services constitute a productive ground for contemporary gender studies including feminist theory masculinity and sexuality studies Its critical perspective provides new directions for emergency work and crisis management in a broader sense and in particular for scholars and practitioners in these areas

*A History of Africa* Hosea Jaffe, 2017-02-15 Spanning more than two thousand years of African history from the African Iron Age to the collapse of colonialism and the beginnings of independence Hosea Jaffe s magisterial work remains one of the few to do full justice to the continent s complex and diverse past The great strength of Jaffe s work lies in its unique theoretical perspective which stresses the distinctive character of Africa s social structures and historical development Crucially Jaffe rejects all efforts to impose Eurocentric models of history onto Africa whether it be liberal notions of progress or Marxist theories of class struggle arguing instead that the key dynamics underpinning African history are unique to the continent itself and rooted in conflicts between different modes of production The work also includes a foreword by the distinguished economist and political theorist Samir Amin in which he outlines the contribution of Jaffe s work to our understanding of African history and its ongoing post colonial struggles *Proceedings of the Seventh International Conference of Ethiopian Studies* Sven Rubenson, 1984

**Diasporic Cold Warriors** Chien-Wen Kung, 2022-03-15 In *Diasporic Cold Warriors* Chien Wen Kung explains how the Chinese Nationalist Party Kuomintang sowed the seeds of anticommunism among the Philippine Chinese with the active participation of the Philippine state From the 1950s to the 1970s Philippine Chinese were Southeast Asia s most exemplary Cold Warriors among overseas Chinese During these decades no Chinese community in the region was more vigilant in identifying and rooting out suspected communists from within its midst none was as committed to mobilizing against the People s Republic of China as the one in the former US colony Ironically for all the fears of overseas Chinese communities ties to the PRC at the time the example of the Philippines shows that the China that intervened the most extensively in any Southeast Asian Chinese society during the Cold War was the Republic of China on Taiwan For the first time Kung tells the story of the Philippine Chinese as pro Taiwan anticommunist partisans tracing their evolving relationship with the KMT and successive Philippine governments over the mid twentieth century Throughout he argues for a networked and transnational understanding of the ROC KMT party state and demonstrates that Taipei exercised a form of nonterritorial sovereignty over the Philippine Chinese with Manila s participation and consent Challenging depoliticized narratives of cultural integration he also contends that because of the KMT Chinese identity formation and practices of belonging in the Philippines were deeply infused with Cold War ideology

Drawing on archival research and fieldwork in Taiwan the Philippines the United States and China Diasporic Cold Warriors reimagines the histories of the ROC the KMT and the Philippine Chinese connecting them to the broader canvas of the Cold War and postcolonial nation building in East and Southeast Asia

**French Politics, Culture and Society**, 2006 *Slavic Review*, 2005 Film and the Shoah in France and Italy Giacomo Lichtner, 2008 Film and the Shoah in France and Italy is a uniquely comparative analysis of the role of cinema in the development of collective memories of the Shoah in these countries The work follows a chronological structure of which three French documentaries Night and Fog The Sorrow and The Pity and Shoah form the backbone These three sections are linked by comparative case studies on famous and lesser known fictional works such as Roberto Benigni's Life is Beautiful Louis Malle's Lacombe Lucien Armand Gatti's The Enclosure and Radu Mihaileanu's Train of Life The book tackles crucial themes such as the politics of history and its representation the 1970s obsession with collaboration and the ethical debate around cinema's ability adequately to represent the Shoah The book fulfils three complementary purposes to offer a detailed historical and textual analysis of key cinematic works on the Shoah to firmly situate the popular and institutional reception of these works within the political and socio-cultural context of the time so as to link cinema to society's attitudes towards the

Shoah and thirdly to show how these attitudes have changed over time in order to evince the role cinema has played in the transmission of history and memory Film and the Shoah in France and Italy shows that cinema has both reflected and affected the dominant perceptions of history contributing to the transition from recognition to representation of the Shoah The book also shows how this transition has been slow and uneven and questions whether recognition and commemoration necessarily imply a deeper historical understanding American Journal of Chinese Studies ,2006 **The Challenge of the Third Reich** Hedley Bull,1986 The Adam von Trott Memorial Lectures Eight contributors re examine the continuing question of the significance of the Third Reich in German and international history *War and Politics in Zimbabwe, 1840-1900* D.
