Better Than Death:

A Dignified Ending Lewis M. Cohen, MD, 2019-07-12 Each year more than one million people and their loved ones arrive at a decision to cease attempts at curative medical treatments and shift to hospice care while one in five Americans now live in geographical regions that have established lawful protocols allowing medical aid in dying also known as assisted suicide In this powerful new work Lew Cohen a psychiatrist and palliative medicine researcher reveals a self determination movement that empowers people to shape the timing and circumstances of their deaths decriminalizes laws threatening those who help them and passes assisted dying legislature He offers a vivid tapestry woven from the candid inspirational and graphic stories of individuals who sought to choreograph how they would die There is nothing simple about these decisions and A Dignified Ending tackles the intricacies of timing the presence of dementia and other dire but not terminal conditions the legal risks as well as the mixed reactions of the disability community Cohen illuminates the evolution of right to die organizations in the United States and the impact of activists like Jack Kevorkian Derek Humphrey Faye Girsh Cody Curtis and Brittany Maynard The decision to conclude one's life with a planned death is an emotionally polarizing subject Nonetheless the public increasingly wants to control how they die This requires that people formulate their end of life preferences and not wait until the last moment to communicate these with physicians and families A Dignified Ending conveys truthful and nuanced accounts of men and women who chose to die and stories of the activists proponents and opponents who promote this growing right to die movement
