**Borderscapes: Imaginations and Practices of Border Making** Dr Chiara Brambilla, Dr Jussi Laine, Professor Gianluca Bocchi, Professor James W. Scott, 2015-12-28 Using the borderscapes concept this book offers an approach to border studies that expresses the multilevel complexity of borders from the geopolitical to social practice and cultural production at and across the border Accordingly it encourages a productive understanding of the processual de territorialized and dispersed nature of borders and their ensuring regimes in the era of globalization and transnational flows as well as showcasing border research as an interdisciplinary field with its own academic standing Contemporary bordering processes and practices are examined through the borderscapes lens to uncover important connections between borders as a challenge to national and EU policies and borders as potential elements of political innovation through conceptual re framings of social political economic and cultural spaces The authors offer a nuanced and critical re reading and understanding of the border not as an entity to be taken for granted but as a place of investigation and as a resource in terms of the construction of novel geo political imaginations social and spatial imaginaries and cultural images In so doing they suggest that rethinking borders means deconstructing the interweaving between political practices of inclusion exclusion and the images created to support and communicate them on the cultural level by Western territorialist modernity The result is a book that proposes a wandering through a constellation of bordering policies discourses practices and images to open new possibilities for thinking mapping acting and living borders under contemporary globalization

*Judicial Impeachment* Mary L. Volcansek,1993 Impeachment by the House and conviction by the Senate are the sole means of removing presidents and other federal officials from office The congressional power to do so had been used sparingly until the early 1980s when three federal judges were removed by the Senate in almost as many years Through extensive use of original transcripts Mary Volcansek analyzes the criminal and congressional proceedings that led to the Senate s conviction and removal of U S Judges Harry Claiborne Nevada Walter Nixon Mississippi and Alcee Hastings Florida Claiborne and Nixon both had already been convicted of felonies yet they demanded impeachment and trial rather than resign their judicial appointments They and Hastings portrayed themselves as victims of vendettas claims that altered little when the Senate considered their cases Volcansek explores various political and legal explanations for the rise in impeachments among them the Judicial Conduct Act of 1980 the Public Integrity Office of the U S Department of Justice partisanship and ideology and judicial corruption She also shows how the cases of Claiborne Hastings and Nixon are more than studies in judicial misconduct the events leading to their Senate convictions she is convinced allow evaluation of how law enforcement the Judicial Conduct Act impeachment and politics fit together Finally she considers the impeachments in the context of the competing ideals of judicial accountability and independence suggesting that a type of special counsel be used to investigate alleged judicial misbehavior as a means of stemming misconduct while insulating the judiciary from executive or partisan interference
