Intercultural Sourcebook Vol 2 Sandra M. Fowler, Monica G. Mumford, 1999-06-01. With the publication of this long-awaited companion to Intercultural Sourcebook Volume 1, the editors have brought together a comprehensive collection of training methods and exercises used by top trainers in the cross-cultural field. They include not only descriptions of methods but also examples of activities and suggestions for creating one's own exercises. This second volume includes articles by thirty-four leading cross-cultural trainers and covers new or divergent training methods for cross-cultural skill development and intercultural learning. These include self-awareness inventories, videotapes, small group exercises, area studies, and an insightful collection of other methods from the programming of field studies to the use of cross-cultural dialogues, culture heroes, and visual imagery. One chapter analyzes the role and significance of research in cross-cultural training, and another explores how training methods can be adapted for different cultures and age groups. In the epilogue, two of the authors share their thoughts on the future of cross-cultural training. Both trainers and educators will find the resources in this volume as they did with the first essential for cross-cultural learning.

Military Brats and Other Global Nomads Morten G. Ender, 2002-03-30. After World War II, American political, military, corporate, and humanitarian responsibilities abroad expanded greatly. With families in tow, government officials, military service personnel, business executives, and missionaries began to travel and live in increasing numbers outside of their home country. Other nations followed suit. Ender examines this legacy of the late 20th century and analyzes the social, psychological, and historical imprints on people who came of age in these service organization families. Such international experiences impose specific demands on employees, their spouses, and their children. These include relocation, risk of death or injury, family separation, and social controls on behavior. This collection contains thirteen essays by researchers studying children, adolescents, youth, and adults in a service organization family context, including the military, the State Department, international educators, and non-governmental organizations. The studies integrate research from sociology, psychology, child and adolescent development, family studies, and communications.

Take Action Lesson Plans for a Multicultural Classroom is for all teachers striving to meet the needs of students in today's diverse K-12 classrooms. Take Action offers 27 practical step-by-step multicultural lesson plans organized around seven microcultures: culture and identity, race and ethnicity, abilities and disabilities, religion, socioeconomics, and class language and gender and sexuality. Each chapter includes three lesson plans at three different grade levels: elementary, middle, and secondary. Each lesson plan is presented with an accessible and predictable format: outlines the content areas addressed, provides a recipe-style list of materials for all the activities in the lesson plan and action projects, and so much more. Connections to national professional standards and benchmarks for K-12 education as outlined by the Mid-continent Research for Education Learning are also included in every lesson plan.

FEATURES

Lesson Plan Video the Take Action DVD located in the front of the book provides readers with 9 video clips of Standards Matrix A Lesson Preparation for the Teacher section provides activities every teacher should do prior to working on any of the lessons that follow. This section includes One Teacher's Reflection. These are stories written by teachers who reflect on specific incidents related to the chapter topic. These stories come from their own classroom and are meant to stimulate thinking about the connection between theory and practice.

Teacher Action Project These teacher action projects are meant to inspire deeper, more global connections between the teacher and the chapter topic. Teachers might be prompted to visit other classrooms, other schools, or other communities. The projects are meant to expose teachers to the chapter topics in a more visceral way than if the preparation had only been through reading.

Suggested Readings and Resources This section provides the teacher with further reading materials, websites, and references extending the action projects by providing teachers with more tools for developing further lessons and projects for their own students.
