[Chiang Mai between Empire and Modern Thailand](#) Taylor M. Easum, 2025-10-01 Urban histories tend to be dominated by large global cities But what does the history of the modern colonial era look like from the perspective of smaller cities By shifting the focus from the metropolis to the secondary city of Chiang Mai this study provides an alternative narrative of the formation of the modern Thai state that highlights the overlap between European American and Siamese interests Through a detailed analysis of Chiang Mai s urban space the power dynamics that shaped the city come into focus as an urban scale manifestation of colonial forces albeit an incomplete one that allowed sacred space to become a source of conflict that was only resolved in the years before WWII Today as the city confronts the challenge of overdevelopment the legacy of the colonial era and the opportunity of heritage preservation this deep multi layered history of the power of and over urban space is vital

Chinese Research Perspectives on the Environment, Special Volume Yisheng Zheng, 2016-03-21 This collection features articles that originally appeared in the first three volumes of the Chinese edition of China Environment and Development Review Written by longtime students of China s environmental challenges and experts working on the research and policy making frontlines these pieces provide an evolutionary perspective on both the intellectual understanding of and efforts to address the country s growing environmental woes As the environmental condition has continued to worsen in recent decades Chinese researchers have made admirable efforts toward grappling with the immensity of the problems including institutional factors that have either compounded or obstructed efforts to mitigate them Case studies show what works or does not in what will no doubt be a long and difficult journey toward sustainable development and environmental restoration

Working the Navajo Way Colleen O'Neill, 2005-10-20 The Dine have been a pastoral people for as long as they can remember but when livestock reductions in the New Deal era forced many into the labor market some scholars felt that Navajo culture would inevitably decline Although they lost a great deal with the waning of their sheep centered economy Colleen O Neill argues that Navajo culture persisted O Neill s book challenges the conventional notion that the introduction of market capitalism necessarily leads to the destruction of native cultural values She shows instead that contact with new markets provided the Navajos with ways to diversify their household based survival strategies Through adapting to new kinds of work Navajos actually participated in

the reworking of modernity in their region weaving an alternate culturally specific history of capitalist development O Neill chronicles a history of Navajo labor that illuminates how cultural practices and values influenced what it meant to work for wages or to produce commodities for the marketplace Through accounts of Navajo coal miners weavers and those who left the reservation in search of wage work she explores the tension between making a living the Navajo way and working elsewhere Focusing on the period between the 1930s and the early 1970s a time when Navajos saw a dramatic transformation of their economy O Neill shows that Navajo cultural values were flexible enough to accommodate economic change She also examines the development of a Navajo working class after 1950 when corporate development of Navajo mineral resources created new sources of wage work and allowed former migrant workers to remain on the reservation Focusing on the household rather than the workplace O Neill shows how the Navajo home serves as a site of cultural negotiation and a source for affirming identity Her depiction of weaving particularly demonstrates the role of women as cultural arbitrators providing mothers with cultural power that kept them at the center of what constituted Navajo ness Ultimately *Working the Navajo Way* offers a new way to think about Navajo history shows the essential resilience of Navajo lifeways and argues for a more dynamic understanding of Native American culture overall

Between Jerusalem and Europe, 2015-06-02 *Between Jerusalem and Europe* Essays in Honour of Bianca K hnel analyses how Jerusalem is translated into the visual and material culture of medieval early modern and contemporary Europe and in what ways European encounters with the city have shaped its holy sites The volume also demonstrates methodological shifts in the study of Jerusalem in Western art by mapping the diversity of concepts that underlie imaginations of the city as an earthly presence and a heavenly realization as a physical and a mental space and as a unique location which is multiplied and re imagined in numerous copies elsewhere Contributors are Lily Arad Pnina Arad Barbara Baert Neta B Bodner Iris Gerlitz Anastasia Keshman Wasserman Katrin Kogman Appel Ora Limor Galit Noga Banai Robert Ousterhout Yamit Rachman Schrire Bruno Reudenbach Alessandro Scafì Tsafra Siew and Victor I Stoichita

Writing to Make a Difference Chris Benson, Scott Christian, 2002 The student projects presented in this book demonstrate a powerful approach to teaching writing one that requires no special equipment or resources and can be adapted for students of any age The key is getting students involved in action research and in writing about issues that are important to them and their communities Written by public school teachers these chapters describe projects covering a variety of issues including avoiding teenage health risks preserving oral histories fighting racism investigating environmental hazards decreasing instances of teen pregnancy and much more Based on a process model of writing instruction these projects will show teachers how to engage their students while also teaching the basic skills that appear in educational standards and assessment frameworks
