the origin the termination and to some degree the path of certain nerve fiber tracts In the case of estradiol and androgen likely to be involved are the stria terminalis the ventral amygdalohypothalamic pathway a portion of the fornix the periventricular bundle and others Hormone neurons have been found only in the periventricular brain but not in the neopallium It was concluded that the hypophysiotropic area is probably not restricted to a limited hypothetical segment of the hypothalamus but is identical with the multiple sites of autoradiographically defined hormone neurons within the phylogenetically older periventricular brain Proceedings of the International Congress on Hormonal Steroids ,1971
