Sabine T Kriebel foregrounds the critical artistic practices with which Heartfield directly confronted the turbulent ideologically charged currents of interwar Europe exposing the cultural politics of the crucial historical moment that witnessed the consolidation of National Socialism In this period of radicalization and mass mobilization the medium of photomontage the cut and paste assemblage of photograph and text offered a way to deconstruct the visual world and galvanize beholders on a mass scale Kriebel transforms our understandings of montage as a quintessentially modern practice Central to that reconceptualization is suture a concept integral to film theory but recruited in this book to explore the psychic operations of Heartfield s seamlessly welded AIZ photomontages Revolutionary Beauty proposes that the language of sutured illusionism constitutes one of the most important and overlooked critiques of modern media wherein a radical reassessment resides in suture Scholars of photography modern and contemporary art history media studies and European history will doubtlessly embrace this book

avant garde created new conceptual models or representations where other discourses have allegedly failed In what ways do practises of investigation quest or exploration shape artistic work or the formal and thematic structures of artworks
