# WIMP

# NO MORE

By John Eastman

When you see a computer screen with a window, a mouse, and a keyboard, you know you're looking at a WIMP. But what does WIMP stand for? It's a common acronym for Windows, Icons, Mouse, and Point-and-click. This is the standard way we interact with computers today. However, some people are still using the old-fashioned command-line interface. This is where the 'NO MORE' part of the title comes in. The author, John Eastman, explains why the WIMP interface is the way forward and why the old ways are being phased out. He discusses the benefits of the graphical user interface and how it has made computers accessible to a much wider range of people. He also touches on the challenges of learning a new interface and how to overcome them. The text is written in a clear, conversational style, making it easy to understand for anyone who is interested in computers.
