Frederick Smith,1870 **An Introductory Hebrew Grammar** ,1966 Practical Introductory Hebrew Grammar (Classic
Reprint) Edwin Cone Bissell,2015-07-02 Excerpt from Practical Introductory Hebrew Grammar This Grammar differs from
other primary Hebrew Grammars chiefly in two respects its compactness of form attained it is believed without loss of
important matter and the facilities it offers for acquiring during the study of the grammatical principles a choice Hebrew
vocabulary All words used in the Hebrew Bible over fifty times the most of those used between twenty five and fifty times and
not a few of those of connected roots used less than twenty five times are here found and they are the only Hebrew words
employed in the book Seven hundred of them are made use of in Parts 1 and 2 and three hundred in the additional Exercises
pp 123 130 It is of course to be expected that the student will make special effort to memorize these words as they occur but
the process it is confidently hoped will be greatly facilitated by the structure of the Grammar itself 1 The words are arranged
in the several Vocabularies under their respective root forms 2 They are very generally accompanied by notes and
mnemonics for the purpose of calling special attention to them and fixing them in mind 3 They are used in the illustrations of
principles in the various tables of inflected forms and all of them in the Exercises for translation 4 Attention is repeatedly
called to them by a careful system of cross references 5 An alphabetical list is given pp 118 120 to serve as a test of the
students acquaintance with the Vocabularies already gone over as well as for general reference 6 The Exercises for
translating Hebrew into English are purposely placed apart from the Vocabularies in order to encourage independence of
them 7 And finally in Ap ii A about six hundred of the words are associated together in the form of synonyms and B three
hundred of similar form or sound are discriminated from one another Among many advantages of this method it has been
found that without any considerable increase of the time required to master the principles of the Grammar the student while
so engaged has also made a fair beginning in the much neglected departments of Hebrew etymology and synonymy and still
better acquired a vocabulary sufficient to enable him to read at sight in the historical books of the Bible The use of
mnemonics is simply incidental to the general plan but far fetched and even ridiculous as some of the suggestions are
acknowledged to be they have proved after an experience of some years very effective for their purpose The only other
systematic attempt of the kind with which I am acquainted is that of Stier Hebraisches Vocabularium Leipz 1871 who

however used the system to a very limited extent About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
