Autoportrait Explosion:

Autoportrait Jean Luc Parant,1999 *Framing French Culture* Natalie Edwards,Ben McCann,2015 Throughout this book the concept of framing is used to look at art photography scientific drawings and cinema as visually constituted spatially bounded productions The way these genres relate to that which exists beyond the frame by means of plastic chemically transposed pencil sketched or moving images allows us to decipher the particular language of the visual and at the same time circumscribe the dialectic between presence and absence that is proper to all visual media Yet these kinds of re framing owe their existence to the ruptures and upheavals that marked the demise of certain discursive systems in the past announcing the emergence of others that were in turn overturned **Fulgurations** Béatrice Adam,Jini Afonso,Markus A. Castor,Thomas Rusche,Natalia Zavialova,2022-10-10 As a courageous opening of photographic self observation to the other the works of the two photographers JiniAfonso and Natalia Zavialova allow participation in the search for the self With the juxtaposition and confrontation of the two oeuvres the exhibition and catalogue create a nexus that leads to fulgurations in the communication of the photographs electrical short circuits between the images the photographers and the viewer The resulting newness a temporary third makes us aware of the subcutaneous connections with ourselves both as a reflection and as a pictorially emotional experience **Paradoxes et peintures - II** Edmundo Morim de Carvalho,2016-01-01 Cet ouvrage porte son regard sur certains mouvements d outre Atlantique monochronisme hyperr alisme expressionnisme abstrait pop art sans omettre Mal vitch et Yves Klein Les paradoxes dominants sont ceux du mouvement immobile de l int rieur ext rieur de la surface profondeur du cadre hors cadre de la mort de l art soulev e par A Danto La mort de l art est l institution du communisme utopique en termes esth tiques r alis e par un dernier paradoxe selon l essor du capitalisme financier et industriel **Queering Black Atlantic Religions** Roberto Strongman,2019-03-14 In *Queering Black Atlantic Religions* Roberto Strongman examines Haitian Vodou Cuban Lucum Santera and Brazilian Candombl to demonstrate how religious rituals of trance possession allow humans to understand themselves as embodiments of the divine In these rituals the commingling of humans and the divine produces gender identities that are independent of biological sex As opposed to the Cartesian view of the spirit as locked within the body the body in Afro diasporic religions is an open receptacle Showing how trance possession is a primary aspect of almost all Afro diasporic cultural production Strongman articulates transcorporeality as a black trans Atlantic understanding of the human psyche soul and gender as multiple removable and external to the body
