## Autumn Portrait:

**The Studio**, 1917      **Images on the Page** Sanda Miller, 2021-08-26 Fashion imagery has existed for hundreds of years and yet the methods used by scholars to understand it have remained mostly historical and descriptive The belief informing these approaches may be that fashion imagery is designed for one purpose to depict a garment and how to wear it In this interdisciplinary book Sanda Miller suggests a radical alternative to these well practiced approaches proposing that fashion imagery has stories to tell and meanings to uncover The methodology she has developed is an iconography of fashion imagery based on the same theory which has been key to the History of Art for centuries Applying Panofsky s theory of iconography to illustrations from books magazines and fashion plates as well as fashion photography and even live fashion events Miller uncovers three levels of meaning descriptive secondary or conventional and tertiary or symbolic In doing so she answers questions such as who is the model what did people wear and why and how did people live She proves that fashion imagery far from being purely descriptive is ripe with meaning and can be used to shed light on society class culture and the history of dress
