Avantgarde Na Bahia:

Avant-garde na Bahia Antonio Risério, 1995 **Neo-Avant-Garde** , 2016-08-01 The neo avant garde of the 1950s 60s and 70s is due for a thoroughgoing reassessment This collection of essays represents the first full scale attempt to deal with the concept from an interdisciplinary standpoint A number of essays in this book concentrate on fine art particularly painting and sculpture thereby adding significantly to the growing art historical literature in the field but a number of the contributions also focus on poetry performance theatre film architecture and music Given that there are also major essays here dealing with geographical blindspots in current neo avant garde studies with thematic issues such as art s entanglement with gender mass culture and politics with key neo avant garde publications and with the purely theoretical problems attaching to the theorisation of the topic this collection offers a multi dimensional approach to the subject which is noticeably lacking elsewhere Taken together these essays represent a consolidated attempt at re thinking the cultural logic of the immediate post World War II period

Revolt of the Saints John F. Collins, 2015-05-01 In 1985 the Pelourinho neighborhood in Salvador Brazil was designated as a UNESCO World Heritage Site Over the next decades over 4 000 residents who failed to meet the state s definition of proper Afro Brazilianness were expelled to make way for hotels boutiques NGOs and other attractions In *Revolt of the Saints* John F Collins explores the contested removal of the inhabitants of Brazil s first capital and best known site for Afro Brazilian history arguing that the neighborhood s most recent reconstruction begun in 1992 and supposedly intended to celebrate the Pelourinho s working class citizens and their culture revolves around gendered and racialized forms of making Brazil modern He situates this focus on national origins and the commodification of residents most intimate practices within a longer history of government and elite attempts to improve the citizenry s racial stock even as these efforts take new form today In this novel analysis of the overlaps of race space and history Collins thus draws on state citizen negotiations of everyday life to detail how residents responses to the attempt to market Afro Brazilian culture and reimagine the nation s foundations both illuminate and contribute to recent shifts in Brazil s racial politics

Brutality Garden Christopher Dunn, 2014-01-01 In the late 1960s Brazilian artists forged a watershed cultural movement known as Tropic lia Music inspired by that movement is today enjoying considerable attention at home and abroad Few new listeners however make the connection between this music and the circumstances surrounding its creation the most violent and repressive days of the military regime that governed Brazil from 1964 to 1985 With key manifestations in theater cinema visual arts literature and especially popular music Tropic lia dynamically articulated the conflicts and aspirations of a generation of young urban Brazilians Focusing on a group of musicians from Bahia an impoverished state in northeastern Brazil noted for its vibrant Afro Brazilian culture Christopher Dunn reveals how artists including Caetano Veloso Gilberto Gil Gal Costa and Tom Z created this movement together with the musical and poetic vanguards of S o Paulo Brazil s most modern and industrialized city He shows how the tropicalists selectively appropriated and parodied cultural practices from

Brazil and abroad in order to expose the fissure between their nation's idealized image as a peaceful tropical garden and the daily brutality visited upon its citizens

Contracultura Christopher Dunn, 2016-10-13 Christopher Dunn's history of authoritarian Brazil exposes the inventive cultural production and intense social transformations that emerged during the rule of an iron-fisted military regime during the sixties and seventies. The Brazilian contracultura was a complex and multifaceted phenomenon that developed alongside the ascent of hardline forces within the regime in the late 1960s. Focusing on urban middle-class Brazilians often inspired by the international counterculture that flourished in the United States and parts of western Europe, Dunn shows how new understandings of race, gender, sexuality, and citizenship erupted under even the most oppressive political conditions. Dunn reveals previously ignored connections between the counterculture and Brazilian music, literature, film, visual arts, and alternative journalism. In chronicling the Brazilian hippie movement, he shows how the state of Bahia, renowned for its Afro-Brazilian culture, emerged as a countercultural mecca for youth in search of spiritual alternatives. As this critical and expansive book demonstrates, many of the country's social and justice movements have their origins in the countercultural attitudes, practices, and sensibilities that flourished during the military dictatorship.

Graphical Heritage Luis Agustín-Hernández, Aurelio Vallespín Muniesa, Angélica Fernández-Morales, 2020-05-11 This book presents the proceedings of the 18th International Conference on Graphic Design in Architecture EGA 2020, focusing on heritage including architectural and graphic heritage as well as the graphics of heritage. Consisting of two parts, Representation and Analysis and Concept and Creation, this second volume gathers selected contributions on topics ranging from graphic representation to the graphic presentation of ideas, i.e., artistic creation to bridge the gap between graphic heritage and the graphics of heritage. Given its scope, this volume will appeal to architectural and graphic designers, artists, and engineers, providing them with extensive information on new methods and a source of inspiration for future research and interdisciplinary collaborations.

Ecstatic Encounters Mattijs van de Port, 2011 Reality does not comply with our narrations of it. And that is most certainly the case with the narrations produced in academia. An anthropologist in Bahia, Brazil, fears to become possessed by the spirits he had come to study; falls madly in love with an informant; finds himself baffled by the sayings of a clairvoyant; and has to come to grips with the murder of one of his best friends. Unsettling events that do not belong to the orderly world of scientific research yet leave their imprint on the way the anthropologist comes to understand the world. Reflecting on his long research experience with the spirit possession cult Candomblé, the author shows in a probing manner how definitions of reality always require the exclusion of certain perceptions, experiences, and insights. And yet, this rest of what is turns out to be an inexhaustible source of amazement, seduction, and renewal. P. 4 of cover.
