Tao Te Ching Ralph Allen Dale,2016-10-11 An evocative and poetic translation of this great ancient treasure illustrated

with dramatic black and silver photographs that perfectly capture the beauty and essence of Lao Tzu's spiritual masterpiece. This is an extraordinary book enlightening and insightful in personal and social realms. Many readers will value it as a work of art; others because of the new meaning it gives to their lives. Dr. Dale's work is in fact a treasure for today and for the future. Milton Schwebel, Ph.D., Professor Emeritus of Psychology, Professional Psychology, Rutgers. The late Ralph Alan Dale translates Tao as the Great Integrity that is the return to holism, honesty, and creativity, our harmony with each other, with the environment, and indeed with ourselves. We are perhaps the first generation in the 2500 years since this inspirational book was written to fully appreciate the words and their message. It resonates with our 21st-century hopes, dreams, and new capacities as though Lao Tzu had written this remarkable book only for us. This book is presented beautifully with stunning atmospheric photographs printed in black and silver to enhance the verses and stimulate the imagination of the reader. A classic work and a beautiful volume to own and give.

Awakening Earth Duane Elgin, 1993. Just as there are relatively distinct stages that characterize the development of an individual from infancy to early adulthood, so too are there discernible stages in the development of our species as we move toward a planetary-scale civilization. Awakening Earth brings together views from science and spirituality, East and West, the practical and the visionary to present a compelling new picture of human evolution. Based upon twenty years of research, this book explores the human journey from the initial awakening of hunter-gatherers roughly 35,000 years ago through the agrarian era and Industrial Revolution, and then goes on to describe three additional stages of development essential for realizing our initial maturity as a global species civilization. A disoriented world civilization faced with dwindling resources, mounting pollution, and exploding population is a recipe for ecological collapse and social anarchy. It is imperative that the human family begin to make rapid and profound changes in how we live together on the Earth. To accomplish this, we must now ask ourselves fundamental questions: Who are we? What are we doing here? Where are we going as a species? Awakening Earth provides a catalyst for this conversation with its integrative vision and inspiring map of the journey toward a sustainable, compassionate, and creative future. While not predicting a sudden new age of social enlightenment, Awakening Earth does present the promising view that humanity is roughly halfway through seven major transformations in culture and consciousness required to build a planetary civilization that can endure into the deep future.
