B S A Bantam All Models 19481971:

The BSA Bantam Bible Peter Henshaw,2015-05-19 The BSA Bantam is one of the definitive postwar British bikes perhaps THE definitive British lightweight built after World War II It was certainly the most popular with over 400 000 built over a 23 year production run in the first four years production broke all records Yet it would die a lingering death production fizzling out in the early 1970s as a neglected model of a manufacturer more concerned with building big fast road burning bikes The Bantam might never have happened without World War II The prewar DKW RT125 was offered to the Allies as reparations taken up and produced in the USA USSR even Japan In East Germany it was revived as the MZ and in Britain it surfaced publicly in 1948 as the BSA Bantam a very simple little 123cc two stroke with rudimentary electrics no rear suspension and a lot of charm The little bike became part of Britain s social history Thousands of people learnt to ride on a Bantam or had their first pillion experience on one or rode one delivering telegrams for what was the GPO Although many of those learners progressed to bigger faster bikes then gave up two wheels for family life they won t have forgotten the Bantam which explains why there s such a thriving Bantam community to this day the club the racing club the spares specialists and restorers owners and riders all over the country This might not be Britain s most glamorous motorcycle its fastest or most flamboyant but the Bantam is probably the most loved

BSA Motorcycles—the final evolution Brad Jones,2019-04-23 Presented for the first time in one book the new for 1971 range of BSA and Triumph motorcycles including the 350cc DOHC twins the innovative Ariel 3 moped projected D18 Bantam and the X 75 Hurricane are all detailed in depth along with related promotional and racing activities Photoshoots the lavish series of brochures and ads that emanated from them and projected and actual colour schemes are also presented with great accuracy By delving into the archives of several historical institutions a comprehensive account of the hitherto largely ignored massive infrastructure investment that took place at BSA s Small Heath works during much of 1970 is revealed along with its re organised North American setup Also included is an equally fresh and detailed appraisal of BSA s financial situation from the dawn of the 1970s until its oblivion in 1973 Besides the many new revelations this book contains an impressive collection of extremely rare factory photographs many of which have never been published before and thought to be the only copies in existence

BSA 500 and 650 Twins Peter Henshaw,2008 Sometimes living under the shadow of the flashier high profile Triumph Twins the equivalent BSAs were just as numerous and were exported all over the world BSA was often seen as a less glamorous marque than Triumph or Norton associated more with commuting and sidecars than coffee bar cowboys but that doesn t detract from the collectibility of its models today as the bikes have become highly usable enjoyable classics Unlike the many marque histories available this book is a practical guide to buying one of these bikes It covers the complete range from the very first 1946 500cc A7 to the final 1973 650cc A65s Chapters include what to look for 10min and 30min evaluations spares prices guides to auctions and paperwork lists of useful contacts in the BSA community and just as important consideration of whether it s

the right bike for you One hundred colour photos useful appendices and expert advice mean this book could save you thousands

Motorcycle Road & Racing Chassis Keith Noakes,2015-10-15 This book is an account of the companies and individuals who have played a major part in the design and advancement of motorcycle frame chassis performance These independent companies began to spring up in the early postwar years when motorcycle racing began to take place again Due to the lack of available factory machines and the urge to improve performance of the now aged equipment riders began to build their own frames around whatever engines were available Success brought recognition and people were soon wanting to buy winning machines so fledgling companies began to spring up to satisfy the growing demand for custom chassis Some of these companies soon began to grow and others appeared in various European countries over the next few years The state of the art hand built frames were becoming a must for the discerning road bike rider and so the independent motorcycle frame makers were beginning to put some designs into production and a thriving business was beginning to emerge In later years with such a large choice of factory engines from around the world the successful independent chassis manufacturers went from strength to strength and some are now producing highly prized road bikes whilst building one off machines as required As the years have passed one or two of the independent companies have disappeared but in many cases their machines have become very collectable classics The companies still thriving today as well as producing modern machines with a wide range of engine options are finding considerable business rebuilding and maintaining machines built in the earlier years Some of the pioneer builders have become household names to the motorcycle fraternity and those written about in this book include Nico Bakker The Netherlands Bimota Italy Dresda Autos United Kingdom Egli Switzerland Harris Performance Products United Kingdom Hejira racing United Kingdom Magni Italy Maxton Engineering United Kingdom P M Motorcycles United Kingdom Quasar United Kingdom Rickman UK United Kingdom Colin Seeley Racing United Kingdom Segale Italy and Spondon Engineering United Kingdom This book charts the history of these innovative companies with full specifications for many chassis and is extensively illustrated throughout A must for any motorcycle enthusiast and a valuable reference for the trade

The Lambretta Bible Pete Davies,2015-12-03 An in depth look at the world s finest scooter from the Model A to the GP 200 The Lambretta story doesn t end there though with the focus moving onto machines prepared and built by Lambretta Concessionaires The book ends with a look at the main British dealer specials of the 1960s
