

USER MANUAL Additional Safety Kit

BAB'So

Congratulations on having acquired a *BAB'So*. This additional Safety kit is not just an object, it exists to help the person wearing it and any accompanying people. It has been designed with your personal safety in mind. It was invented through necessity when practicing various sports in the countryside or city.

Please take some time to familiarise yourself with the kit. Try it out several times to ensure you are perfectly comfortable using it. It can be worn rolled up or flat. Remember to fix the life line to a support (body or piece of equipment).

The *BAB'So* needs no external power to operate. It does however **need the person** wearing it or someone nearby to be **conscious in order to activate it**. Ensure that the phosphorescent tubes have not expired (valid for 2 years) or have not been used (unbroken).

The *BAB'So* is an additional safety kit. **It does not preclude the use of other safety devices. Remember, the *BAB'So* is not a buoy, but a device designed to assist finding and identifying the wearer.**

Be careful not to bend the phosphorescent tubes when installing them.

Ensure that the mast is correctly positioned in the pennant. There are 2 holes for inserting the tubes. One in the centre and another on the side. The central hole must be within the concave (hollow) part of the mast. (See Figure A below).

Do not force the mast by pinching or bending it or you may damage it.
