Bashō's Haiku Matsuo Bashō, 2012-02-01 2005 CHOICE Outstanding Academic Title Bashō's Haiku offers the most comprehensive translation yet of the poetry of Japanese writer Matsuo Bashō 1644-1694 who is credited with perfecting and popularizing the haiku form of poetry. One of the most widely read Japanese writers both within his own country and worldwide, Bashō is especially beloved by those who appreciate nature and those who practice Zen Buddhism. Born into the samurai class, Bashō rejected that world after the death of his master and became a wandering poet and teacher. During his travels across Japan, he became a lay Zen monk and studied history and classical poetry. His poems contained a mystical quality and expressed universal themes through simple images from the natural world. David Landis Barnhill's brilliant book strives for literal translations of Bashō's work arranged chronologically in order to show Bashō's development as a writer. Avoiding wordy and explanatory translations, Barnhill captures the brevity and vitality of the original Japanese, letting the images suggest the depth of meaning involved. Barnhill also presents an overview of haiku poetry and analyzes the significance of nature in this literary form while suggesting the importance of Bashō to contemporary American literature and environmental thought.

**Classic Haiku** Bashō? Matsuo, Bashō, Asataro Miyamori, 2002-01-01 This volume features dozens of Bashō's poems as well as works by his predecessors and ten of his disciples: Kikaku, Ransetsu, Joso, and Kyoroku among them. Intended principally for readers with no knowledge of Japanese literature, the book includes the original Japanese text, a transliteration, and English translations for each verse.

**Enso** Audrey Yoshiko Seo, 2007 The enso or Zen circle is one of the most prevalent images of Zen art and has become a symbol of the clean and strong Zen aesthetic. This book contains examples of traditional enso art from the seventeenth century to the present.

**Japan and the Culture of the Four Seasons** Haruo Shirane, 2012-03-20 Elegant representations of nature and the four seasons populate a wide range of Japanese genres and media, from poetry and screen painting to tea ceremonies, flower arrangements, and annual observances. In *Japan and the Culture of the Four Seasons*, Haruo Shirane shows how, when, and why this practice developed and explicates the richly encoded social, religious, and political meanings of this imagery. Refuting the belief that this tradition reflects Japan's agrarian origins and supposedly mild climate, Shirane traces the establishment of seasonal topics to the poetry composed by the urban nobility in the eighth century. After becoming highly codified and influencing visual arts in the tenth and eleventh centuries, the seasonal topics and their cultural associations evolved and spread to other genres, eventually settling in the popular culture of the early modern period. Contrasted with the elegant images of nature derived from court poetry was the agrarian view of nature based on rural life. The two landscapes began to intersect in the medieval period, creating a complex, layered web of competing associations. Shirane discusses a wide array of representations of nature and the four seasons in many genres, originating in both the urban and rural perspective: textual poetry, chronicles, tales, cultivated gardens, flower arrangement, material, kimono, screens, performative noh, festivals, and gastronomic tea ceremony, food rituals. He reveals how

this kind of secondary nature which flourished in Japan's urban architecture and gardens fostered and idealized a sense of harmony with the natural world just at the moment it was disappearing. Illuminating the deeper meaning behind Japanese aesthetics and artifacts, Shirane clarifies the use of natural images and seasonal topics and the changes in their cultural associations and function across history, genre, and community over more than a millennium. In this fascinating book, the four seasons are revealed to be as much a cultural construction as a reflection of the physical world.

Autumn Moon, 2006 *Thanking the Moon: Celebrating the Mid-Autumn Moon Festival* Grace Lin, 2012-09-26 This simple, young, and satisfying story follows a Chinese American family as they celebrate the Mid-Autumn Moon Festival. Each member of the family lends a hand as they prepare a moonlit picnic with mooncakes, pomelos, cups of tea, and colorful lanterns. And everyone sends thanks and a secret wish up to the moon. Grace Lin's luminous and gloriously patterned artwork is perfect for this holiday tale. Her story is simple, tailor-made for reading aloud to young children. And she includes an informative author's note with further details on the customs and traditions of the Moon Festival for parents and teachers. The Moon Festival is one of the most important holidays of the year, along with the Lunar New Year, so this book makes an excellent companion to Grace Lin's *Bringing In the New Year*, which features the same family.

*Celestial Sleuthing* Donald W. Olson, 2026-01-01 Many mysteries in art history and literature can be solved using celestial sleuthing, including calculating phases of the Moon, determining the positions of the planets and stars, and identifying celestial objects in paintings. In addition to helping to crack difficult cases, such studies spark our imagination and provide a better understanding of the skies. This book shows how weather archives, vintage maps, historical letters, and diaries, military records, and site visits aid the work. For each artwork, historical event, or literary passage influenced by astronomy, there is a different kind of mystery to be solved. For example, how can the position of the Sun and Moon determine the date and time of famous paintings by Vincent van Gogh and Caspar David Friedrich? How can astronomy determine a precise date for a work by Wassily Kandinsky, a painter best known for abstract works with geometrical shapes and dramatic colors? What important battle of ancient history caused a design change with a crescent Moon added to the silver tetrachems of Athens? In what season did Sappho write her iconic work *The Midnight Poem*? Did observers actually report five Moons simultaneously in the sky during the time of King John, as recorded in lines from Shakespeare's play? Follow these exciting investigations with Donald Olson, a master Celestial Sleuth, as he tracks down the truth and helps unravel mysteries as far back as ancient history and as recent as World War II.

From Sky and Earth to Metaphysics Anna-Teresa Tymieniecka, 2014-10-13 This is an exceptional volume which expands upon the World Phenomenology Institute's recent research: the study of the beautiful intertwining of the skies and the cosmos with the human pursuits of philosophy, literature, and the arts. The relationship of humans to the cosmos is examined through the exploration of phenomenology, metaphysics, and the arts. The authors of this volume write on a variety of topics which all seek to open the reader's eyes to the

relationship of humans and our perception of our place in the cosmos This volume offers a framework in which to present a rich panorama a variety of perspectives illustrating how the perception of the interplay between human beings and the celestial realm advances in common experience and worldviews This attempt to uncover our cosmic position is a great and worthwhile intellectual challenge Philosophy as well as literature and the arts are nourished by this human quest for knowledge and understanding
