209

Moravia and Bruno join a knot of pilots and mechanics who have gathered around the Stearman, which has just landed, its engine still running. Carson is the pilot -- he calls to Moravia as he breaks through the crowd.

CARSON

There's a hole over the Tuscarora mine. The whole front is breaking up.

MORAVIA

All right -- everyone goes. Meet over the mine if you get separated.

The pilots take off at a run, mechanics following.

The Invisible Hand in Popular Culture Paul A. Cantor,2012-11-30 Analyzes how ideas about economics and political philosophy find their way into everything from Star Trek to Malcolm in the Middle Wall Street Journal Popular culture often champions freedom as the fundamentally American way of life and celebrates the virtues of independence and self reliance But film and television have also explored the tension between freedom and other core values such as order and political stability What may look like healthy productive and creative freedom from one point of view may look like chaos anarchy and a source of destructive conflict from another Film and television continually pose the question Can Americans deal with their problems on their own or must they rely on political elites to manage their lives In this groundbreaking work Paul A Cantor whose previous book Gilligan Unbound was named one of the best nonfiction books of the year by the Los Angeles Times explores the ways in which television shows such as Star Trek The X Files South Park and Deadwood and films such as The Aviator and Mars Attacks have portrayed both top down and bottom up models of order Drawing on the works of John Locke Adam Smith Alexis de Tocqueville and other proponents of freedom Cantor contrasts the classical liberal vision of America particularly its emphasis on the virtues of spontaneous order with the Marxist understanding of the culture industry and the Hobbesian model of absolute state control The Invisible Hand in Popular Culture concludes with a discussion of the impact of 9 11 on film and television and the new anxieties emerging in contemporary alien invasion narratives the fear of a global technocracy that seeks to destroy the nuclear family religious faith local government and other traditional bulwarks against the absolute state

The Philosophy of Martin Scorsese Mark Conard,2007-05-31 Academy Award winning director Martin Scorsese is one of the most significant American filmmakers in the history of cinema Although best known for his movies about gangsters and violence such as Mean Streets Goodfellas Casino and Taxi Driver Scorsese has addressed a much wider range of themes and topics in the four decades of his career In The Philosophy of Martin Scorsese an impressive

cast of contributors explores the complex themes and philosophical underpinnings of Martin Scorsese's films. The essays concerning Scorsese's films about crime and violence investigate the nature of friendship, the ethics of vigilantism, and the nature of unhappiness. The authors delve deeply into the minds of Scorsese's tortured characters and explore how the men and women he depicts grapple with moral codes and their emotions. Several of the essays explore specific themes in individual films. The authors describe how Scorsese addresses the nuances of social mores and values in *The Age of Innocence*, the nature of temptation and self-sacrifice in *The Last Temptation of Christ* and *Bringing Out the Dead*, and the complexities of innovation and ambition in *The Aviator*. Other chapters in the collection examine larger philosophical questions. In a world where everything can be interpreted as meaningful, Scorsese at times uses his films to teach audiences about the meaning in life beyond the everyday world depicted in the cinema. For example, his films touching on religious subjects such as *Kundun* and *The Last Temptation of Christ* allow the director to explore spiritualism and peaceful ways of responding to the chaos in the world. Filled with penetrating insights on Scorsese's body of work, *The Philosophy of Martin Scorsese* shows the director engaging with many of the most basic questions about our humanity and how we relate to one another in a complex world.
