The Avro Arrow Lawrence Miller,2020-07-20 When it first flew in 1957 the Avro Arrow was the world s best supersonic combat aircraft It was the proudest achievement of the engineers and designers in Canada s world leading aircraft industry They had already succeeded in building the worlds first passenger jet This book tells the story of building testing and flying the Arrow It explores the reasons why the Diefenbaker Conservative government of the day cancelled the contract to build these planes and then ordered the six already finished airplanes cut up and destroyed

[The Avro Arrow](#) Palmiro Campagna,2024-02-06 No one has done more than Palmiro Campagna to document the story of Canada s extraordinary Avro Arrow This latest work sheds new light on the Arrow s fascinating saga ANDREW CHAIKIN author of *A Man on the Moon* An expanded edition of the bestselling book including newly discovered American records that shed further light on the disastrous cancellation of the Avro Arrow The controversial cancellation of the Avro Arrow an extraordinary achievement of Canadian military aviation continues to inspire debate today When the program was scrapped in 1959 all completed aircraft and those awaiting assembly were destroyed along with tooling and technical information Was abandoning the program the right decision Did Canada lose more than it gained Brimming with information to fill the gaps in the Arrow s troubled history this new edition also brings to light recently discovered documents that answer whether the United States government wished Canada to continue the development of what was considered the world s most advanced

interceptor aircraft **The Avro Arrow Story** Bill Zuk,2011-12-14 These dedicated men and women gave blood sweat and tears as their contribution And now it really happened our beloved bird was in the air Ray Boone A V Roe Canada employee In the 1950s A V Roe Canada was at the forefront of aviation development worldwide After building one of the first jet airliners and completing production of Canada s first jet fighter the company was poised to launch its most revolutionary design the Avro Arrow Despite the efforts of courageous test pilots and some of the world s best designers engineers and technicians the dream was shattered *Storms of Controversy* Palmiro Campagna,1992 New documents clarify the American government s role in the scandalous decision to scrap the Avro Arrow The Arrow James Dow,1997 Here is the fascinating story of the rise and fall of the Arrow the legendary interceptor jet aircraft developed by A V Roe Canada in the fifties The Arrow was an unprecedented success story for Canada s fledgling aviation industry It was conceived by its builders as the culmination of an impressive string of world firsts Faster than any previous aircraft it represented the leading edge of technology and an achievement of the highest calibre Then came the dramatic decision whose rationale was not made public at the time and which remains hard to fathom even today The Diefenbaker government cancelled the Arrow and everything was destroyed including the planes themselves Nothing was to remain Working from official documents archives interviews and a wide range of unofficial sources James Dow presents the authoritative story of A V Roe Canada and its projects He describes how the Arrow was developed and why it was killed Dow takes us behind the scenes to the real dynamics and rivalries which were a part of the Arrow from the beginning and which explain its fate This edition of the definitive book on the subject has been updated with a new introduction **Arrow Countdown** Peter Zuuring,2001
 Arrow First Flight, March 25, 1958 Peter Zuuring,2002 **The Avro Arrow Story (JR)** BILL ZUK,2006-01-01 The Avro CF 105 Arrow was an interceptor aircraft It was designed and built in Ontario in the 1950s The company that built the Arrow was one of the best airplane companies in the world It was an amazing plane But the plane as cancelled by the government The prototypes were destroyed and the blueprints were burned But the name lives on **Avro Arrow** Arrowheads,1990
 Who Killed the Avro Arrow? Chris Gainor,2007 A fascinating examination of the international politics pressures and personalities behind one of the most controversial decisions in Canadian history the mothballing of the incredibly sophisticated jet fighter the Avro Arrow *The Avro Arrow: A Picture History* Lawrence Miller,2011-10-24 Dramatic images tell the story of the creation and destruction of the best aircraft in the world **Arrow Rollout, October 4, 1957** Peter Zuuring,2002 Jane's All the World's Aircraft ,1958 **Canadian Aviation and the Avro Arrow** Fred Smye,2014-08-06 With its first flight in 1958 the Avro Aircraft CF 105 Arrow appeared to be Canada s greatest aeronautical achievement As the world s fastest and most advanced aircraft at that time the Arrow flying at twice the speed of sound over the Canadian north was to attack Soviet bombers with air to air nuclear missiles Also during the mid 1950 s the Royal Canadian Air Force with its 27 fighter jet squadrons assigned to NATO and NORAD was respected as one of the great air forces in the western

alliance But Canada quickly tumbled from this threshold of aeronautical leadership with the sudden cancellation and destruction of the Arrow Fred Smye was in on the genesis of Canada s post WW II air power and describes the decade of innovation and growth in the nation s extraordinary aviation industry that once enabled a unique and independent air defence strategy Smye also reveals the misinformation misjudgments flawed economics and political machinations that forced him to give the orders to cut up the existing Arrows when the Diefenbaker government cancelled the program on February 20 1959 That Black Friday devastated Canada s aviation industry throwing tens of thousands of workers out of highly skilled jobs and forcing an exodus of scientists and engineers to the U S and Britain Canada subsequently surrendered its independent air defence strategy and came to rely on the U S for aviation industry sub contracts and a meager supply of obsolete military aircraft for a diminished air force

Arrows to the Moon Chris Gainor,2001 On 20 February 1959 the Canadian government shut down the CF 105 Avro Arrow jet interceptor programme putting the cream of Canada s aerospace engineering talent out of work Many of the Avro engineers had just arrived in Canada from Great Britain A brand new organisation called the National Aeronautics and Space Administration was charged with putting US astronauts into space and in 1959 it desperately needed engineering talent Within 10 weeks of the demise of the Arrow 25 Avro engineers were working for NASA and another seven joined them later Other Avro engineers found work with the aerospace contractors that built spacecraft and boosters for NASA A little more than 10 years later US astronauts were standing on the surface of the Moon in the climax of one of the greatest stories of technology and exploration in human history This book tells for the first time the story of the Canadian and British engineers from Avro Canada who played key roles in putting Americans on the Moon and in building today s US space programme including the space shuttle and the International Space Station Also included are other Canadian contributions to Apollo and a chapter on the Canadian space programme This is the final chapter in one of the most compelling stories in Canada s history How the demise of Canada s national dream contributes to one of the greatest triumphs in American history
