Ideals for work in
the post-consumer
society

Lawrence Haworth

Decadence And Objectivity

Clemens Wendtner

Decadence And Objectivity:

Decadence and Objectivity Lawrence Haworth, 1977-12-15 Haworth's concerns are urgent. Modern society, he argues, threatens to collapse under the burden of mindless growth. Its demands have begun to exhaust the world's resources. The pursuit of growth has hollowed out our social foundations. Advanced technology has emancipated us from toil but condemned us to work that is perceived as meaningless. The dissolution of traditional communities has resulted in a society which has no sense of common concern or public purpose. Most people live largely in private spheres and value the public sphere only for its capacity to improve their private lives, a function which is exercised unevenly and is largely incidental to its purpose. Modern urban society is characterized by its decadence, a pervasive lack of inspiring vision. In this book, Haworth concerns himself with the conceptual foundations of social order and the options for a future society. He analyses two sharply contrasting systems: the one committed to individual satisfaction and independence and the other based on collective values and rewards. Both would retain advanced technology but restrain consumption. The leisure-oriented society would reduce the hours of work at a sacrifice of efficiency and at the expense of individual determination. This analysis provides the basis for a new model of what Haworth calls an objective society based on the ideals of responsibility, leisureliness, and professionalism. These ideals imply a sympathetic yet not strictly custodial attitude towards the natural world, a responsible use of human creativity and natural potential, a sense of absorption in the present in the original Greek sense of leisure, which is contrasted with the more recent association of leisure with discretionary time and above all a sense of professional commitment. Commitment links individuals who locate the point of their lives outside themselves and their private interests in some work for which they have a distinctive talent and in the pursuit of which they experience a meaningful shared existence. Lawrence Howarth offers a model, not a blueprint, but it is one that political scientists, economists, sociologists, urban planners, and all who are committed to improving the design of our society should consider carefully.

Decadence and Objectivity

Lawrence Haworth, 1977

Inherent and Instrumental Values G. John M. Abbarno, 2014-12-10 The essays in this book range broadly over different aspects of value theory and include contributions by Nicholas Rescher, Frances Kamm, Barry Smith, and Jan Narveson. Portions examine the theoretical foundations of values and valuation, exploring the rational groundwork for judgments. Other aspects appealing to value distinctions of inherent, intrinsic, and instrumental, drawn most notably by C. I. Lewis, bring to light matters of aesthetic, social, political, ethical, and ontological issues. Throughout *Inherent and Instrumental Values*, the authors address questions assessing the intrinsic worth or utility of actions and whether manual or professional labor can hold an equal value rating and the implications of this assessment. In other portions of the anthology, authors explore the extent to which such value categories above help clarify and assess moral issues we encounter in everyday life. Among some analyzed in this book are racism and affirmative action, abortion, euthanasia, homelessness, care, and friendship. The theme of the nature of value and the role of valuation we encounter in the days of our life provide a basis for

examining other aspects of axiology that lie beyond the scope of this work Philosophical Writings: Friedrich Nietzsche
Friedrich Wilhelm Nietzsche, 1995-10-01 Philosophical Writings part of the German Library Series contains essential portions of the theses that make Nietzsche the most controversial of philosophers It includes The Birth of Tragedy Beyond Good and Evil The Gay Science Untimely Meditations Human All too Human and other works Included are Preface to Richard Wagner On Truth and Falsity in their Extramortal Sense The History of an Error We Antipodes Genealogy of Morals A Polemic and On the Pathos of Truth Although his reputation has bordered on notoriety Nietzsche's influence has unquestionably not diminished with time and our fascination with him will be further fed by the publication of this volume *Mabogo P. More*
Tendayi Sithole, 2022-04-04 Mabogo P More Philosophical Anthropology is the first book to provide an extensive treatment of More's African existential thought This book locates him as it is clear in his body of work in the Azanian Black and Indigenous existential tradition As a philosopher he is engaged from the perspective of black radical thought From this intervention it is clear that his philosophical project originates and is expressed from the existential condition of being black in an antiblack world It is from the lived experience and the fact of being black that More is meditated upon and this book which is the extension of his work brings to the forth the ways of thinking knowing and doing that that illuminate his philosophical project **The will to power** Friedrich Wilhelm Nietzsche, 1909 **The Future of Free Speech** Law R. George Wright, 1990-06-27 This book considers the free speech issues associated with matters as diverse as the use of racial epithets flag burning obscenity and speech by public employees public school students and public school teachers The author argues persuasively that free speech law has become unnecessarily complex and that free speech protection has been extended well beyond the bounds suggested by the various reasons for protecting speech in the first place These developments he suggests risk an eventual weakening of the public commitment to free speech as a fundamental value Arizona Law Review, 1988 **A Town Abandoned** Steven P. Dandaneau, 1996-04-11 A cultural study of the Flint community's response to its own deindustrialization within the framework of the state national and international forces that produced it **Professional Ethics**, 1995 *Nietzsche's System* John Richardson, 2002-05-23 This book argues against recent interpretations that Nietzsche does in fact have a metaphysical system but that this is to his credit Rather than renouncing philosophy's traditional project he still aspires to find and state essential truths both descriptive and evaluative about us and the world These basic thoughts organize and inform everything he writes by examining them closely we can find the larger structure and unifying sense of his strikingly diverse views With rigor and conceptual specificity Richardson examines the will to power ontology and maps the values that emerge from it He also considers the significance of Nietzsche's famous break with Plato replacing the concept of being with that of becoming By its conservative method this book tries to do better justice to the truly radical force of Nietzsche's ideas to demonstrate more exactly their novelty and interest Cumulative Bibliography of Victorian Studies, 1970 *American Journal of Chinese Studies*, 2001 Decadent Desire

Monique Marie LaRocque,2001 *German Writers in Soviet Exile, 1933-1945* David Pike,1982 *German Writers in Soviet Exile 1933 1945* explores the lives and work of several dozen German Communist writers and cultural functionaries who were given asylum in Stalin s Russia when Hitler came to power in Germany Based on extensive research in the archives of Moscow East Berlin and Budapest and on interviews with survivors of the German Communist emigration to the USSR David Pikes account of the life of political exiles during the Stalin years describes the conditions under which German Communists were compelled to live and their public and private feelings toward thier second fatherland He discusses Soviet immigration policy and the travel restrictions placed on the Germans takes an inside look at the German Section of the Soviet Writers Union and provides the first full account of the arrest of thousands of German Communists during the Stalinist purges Other chapters center on the exiles involvement in the Communist International s efforts to mobilize a particular form of pro Soviet antifascism and the effect upon it of the Moscow show trials the Communists perception of National Socialism and the quality of their opposition to it In this context Pike uses the nature of their commitment to Hitler s overthrow to question the motives attitudes and and ambitions of men whose outlook had been molded by their Soviet experience when they returned in 1945 to assume proxy control of East Germany Another important chapter adds significantly to our knowledge of Soviet literary politics under Stalin Drawing on unpublished material as well as on the contemporary Soviet daily and periodical press Pike examines the evolution of Georg Luk cs s literary and cultural political theories in their relation to Soviet socialist realism He shows for the first time how the realism debates of 1937 to 1939 between Luk cs Bertolt Brecht Hanns Eisler Walter Benjamin Ernst Bloch and others were manipulated in Moscow and he suggests reasons for the downfall of the Luk cs Lifshits Trend in Soviet literary criticism Twenty five eventful years are drawn together in this study Because Pike sets his subject matter within a broad political and historical context his book must be regarded as a meaningful contribution to several disciplines Soviet and German history Communist studies in general Soviet Russian literary politics German exile studies and the prehistory of the German Democratic Republic Originally published in 1982 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value Naturalism in the Recent German Drama Alfred Stoeckius,1903 **Book Review Index** ,1985 Every 3rd issue is a quarterly cumulation Encyclopedia of World Problems and Human Potential Union of International Associations,1991 A sourcebook of information on over 13 000 recognized world problems their perceived interconnections and the organizational human resources available to analyze challenge and respond to them The problems have been compiled from governmental and non governmental sources **Current Book Review Citations** ,1981 **The Cumulative Book Index** ,1980 A world list of books in the English language
